RE: Freedom Ring Communications, L.L.C. NHPUC. NO. 1 Access Services

Dear Ms. Howland:

Enclosed please find the revised original and two copies of Freedom Ring Communications, L.L.C. d/b/a BayRing Communications' revision filing of NHPUC. NO. 1 Access Services Tariff.

Our currently approved tariff includes a typographical error at page 90, 5.1.4C, in which a decimal point is missing. The Composite Terminating End Office Charge is now listed as \$0003281. It should be listed as \$0.003281, which is the composite rate cap established by the local price cap carrier. We are submitting a corrected tariff page for approval, with an effective date of January 25, 2015.

It is our understanding that since July 1, 2014 the listed per minute rate of \$3281 was intended to reflect the rate reduced by FCC rules to \$0.003281 (the price cap carrier's composite rate), and we are currently charging wholesale carriers based on that number. The tariff revision will clarify this.

An electronic copy of the tariff is also enclosed. Please date stamp and return the extra copy of this letter in the enclosed, self-addressed, stamped envelope indicating receipt.

Please don't hesitate to contact me if you have any questions regarding this submission.

Respectfully submitted,

Jennifer M. Hassen
