Re: Delivery Service Tariff NHPUC No. 8 Effective November 17, 2014

Dear Ms. Howland:

In compliance with Secretarial letter dated November 12, 2014 in Docket No. DE 14-203 (Proposed Amendment to Controlled Water Heating and Load Controlled Service Rates), the following tariff pages are transmitted herewith:

NHPUC No. 8 - Electricity Delivery  
Public Service of New Hampshire

9<sup>th</sup> Revised Pages 42, 46 and 52

1<sup>st</sup> Revised Page 57

Effective: November 17, 2014

In its letter, the Commission approved amendments to the Controlled Water Heating (CWH) and Load Controlled Service (LCS) tariff provisions removing the requirements for a special meter with a time based load control switch, suitable for direct load control. This will allow PSNH to install standard Automatic Meter Reading (AMR) meters at locations served under these rates.

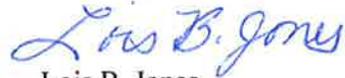

The time based load control switch in many of the meters serving CWH and LCS customers are no longer working properly and none of the major meter manufacturers PSNH works with manufacture a suitable replacement meter. AMR meters will be installed at these locations as part of a wider meter conversion project.

Customers served by these rates will see no change to their billing or service and will continue to bill under CWH or LCS until they are no longer eligible or until the rates are eliminated in a future rate case. PSNH plans to continue in its effort to reduce the number of customers on these rates until that time.

Please let us know if there are any questions concerning this filing. We are enclosing a black-lined version of the tariff pages as well as one signed original copy of all filing materials and three conformed copies. We request that one conformed copy bearing the Commission's date-of-receipt stamp be returned.

Very truly yours,

Lois B. Jones
