RE: Registering as an Aggregator of Natural Gas

Dear Sir or Madam,

I have enclosed one original and two copies of Unified Energy's Cover letter, Authorization letter to do business in New Hampshire from the Secretary of State along with our application for registration as an Aggregator of Natural Gas, together with the application fee of \$250.00.

Unified Energy was founded in November 13th, 2008 with the sole purpose of providing its customers with better energy procurement services than could otherwise be found. Unified Energy Services, LLC is a wholly-owned subsidiary of Tullett Prebon as of January 1st, 2012.

With more than 25 years of combined wholesale, retail, and supply side energy experience, Unified Energy is a national leader in power purchasing and negotiations. Generally speaking, we create a market for its customers among retail energy suppliers interested in their electricity load. We provide insight to customers on contract specifics including: 1) contract disclosure of terms and conditions; 2) service termination provisions; 3) disconnection and service termination requirements of selected retail energy provider; 4) minimum service quality and assurance of retail energy provider credit worthiness and status within the state and; 5) customer information including load profile usage and historical usage used to provide a fair and competitive price for electricity.

Feel free to contact me or Michael Harris anytime with any further questions or concerns.

Kindest regards,

Kirsty-Lee Norvell

VP of Operations
