Witness: Frederick White

---

**Request:**

For the period January 1, 2015 – June 30, 2015, what percentage of PSNH's power purchases were from the ISO-NE day ahead market?

**Response:**

Based on the MWh/Hr data provided in response to GSHA 1-008, 90% of energy purchases occurred in the day-ahead market and 10% occurred in the real-time market. However, at the margin 100% of the time there was some amount transacted in the real-time energy market.
