**Subject:** Liberty Kinder Morgan Pipeline Deal

Way to sell the people of NH down the river! What a joke of a deal and each and everyone of you will be held accountable for this. Thank you so much also for suggesting a Tariff to help pay for this pipeline as thousands of landowners will have their properties stolen by eminent domain for a project that has such minimal benefits to NH but mainly benefits MA, Maine and exports. Not one landowner along the route will have access to this gas. Not one lateral/spur even comes to any NH town and the only lateral from the main line in NH shoots out from Mason NH and back down into MA.

Us landowners will be forced to sue and use every financial resource available to us to defeat such a ridiculous project.

Thanks,

Tyler Seppala  
Rindge NH
