Re: Northern Utilities, Inc., New Hampshire Division - Docket DG 16-309
May 2016 Monthly Cost of Gas Report

Dear Director Howland:

Pursuant to the Commission's Order No. 25,891 in Docket DG 16-309, enclosed is Northern Utilities - New Hampshire Division's ("Northern" or the "Company") current calculation of its projected over or under collection of gas costs ending October 31, 2016 for the 2016 summer season. The Company is also providing a summary of its hedging transactions and monthly inventory interest calculation, both updated through April 2016.

The calculation, which reflects the Company's actual May 1, 2016 balance and gas futures prices as of May 17, 2016 produces an anticipated under-recovery of \$184,787 or 5.47% for the 2016 summer season.

Accordingly, pursuant to its tariff, the Company has enclosed for filing the following Tariff Pages reflecting an increase in its Cost of Gas ("COG") Adjustment Rates:

Eleventh Revised Page 43,
 Eleventh Revised Page 96,
 Eleventh Revised Page 97.

These Tariff Pages are issued May 20, 2016, to be effective for usage on and after June 1, 2016. Red-line versions of these Tariff Pages are also enclosed.

The impact of the June 1 change in the Cost of Gas Adjustment Rate on the typical residential heating customer for the 2016 summer season will be \$2.24 or 0.87 percent more than the summer period bill at the Company's current Cost of Gas Adjustment Rate.
