RE: Docket No. DE 16-576  
Electric Distribution Utilities - Development of New Alternative Net Metering Tariffs  
  
Eversource Marginal Cost of Service Study

Dear Director Howland:

On June 23, 2017 in the above-captioned proceeding, the Commission issued Order No. 26,029. That order established numerous requirements for utilities and others. Among those requirements was the following:

Because Eversource is in the process of divesting its generation assets and we anticipate it will be filing a general rate case within the next few years, we direct that Eversource perform a full marginal cost-of-service study within 12 months of the date of this Order, and make available to stakeholders in this proceeding the results of, and inputs to, that study as well as the methodology used in completing the study.

Order No. 26,029 at 61. Eversource engaged a consultant who has performed a marginal cost of service study for Eversource. Consistent with the Commission's directive (as modified by secretarial letter of June 29, 2018) Eversource encloses herewith its marginal cost of service study.

If you have any questions, please do not hesitate to contact me. Thank you for your assistance with this matter.

Very truly yours,

Matthew J. Fossum  
Senior Counsel
