ELECTRIC DISTRIBUTION UTILITIES

Development of new alternative net metering tariffs and/or other Regulatory Mechanisms and tariffs for Customer Generators

[Standard Power of America's Petition to Intervene](#)

Standard Power submits this petition for Intervention in the above referenced docket and states the following:

1. Standard Power is a full service energy broker and consultant for the New England area. Standard Power works with schools towns and businesses in New Hampshire to reduce energy cost and use. We believe that renewable energy is a key component of are regions energy resource.
2. Standard Power is located in Merrimack New Hampshire. Since 2010 we have provided Third Party Electricity, Solar Development and Installation and are currently administering 10 Hydro Electric Plants.
3. Standard Power was actively involved in the support of SB333 and HB1116, which initiated the current docket. We believe the prompt development and implementation of new alternative net metering tariffs is critical to the continued development of renewable energy in our State.

Standard Power of America requests that it be granted full intervenor status in this proceeding.

Bob Hayden VP CTO
