**Subject:** VOTE NO ON THE NORTHERN PASS

**Subject: PLEASE VOTE NO ON THE NORTHERN PASS PPA APPLICATION**

Dear Ms. Bailey:

I own a home in Ashland, NH, close to Interstate 93, very near where huge electric power towers are proposed to be built. It is my understanding that Eversource and Hydro-Quebec's application for a PPA is about to be voted upon by the New Hampshire Public Utilities Commission (PUC).

My wife and I, as well as most of our neighbors, are strongly opposed to granting approval of the PPA given the nearby planned route of the towers. We believe these monstrous towers pose a threat to 1) the scenic beauty of our vistas, 2) the tourist trade upon which our town thrives, 3) our respective real estate investments, 4) the calm and quiet of our way of life and 4) possibly our physical/mental health & well being.

We urge the commission to reject the application until the proposed plans bypass our community or completely eliminate the electrical towers in favor of underground cables.

PLEASE VOTE NO ON THE NORTHERN PASS PPA APPLICATION.

Sincerely,

Stephen Boardman
