Dear ED Howland: I want to encourage you to reject Eversource's request to keep the Northern Pass and Access Northeast Pipeline dockets open.. A clear ruling has been made and there is no reason for these dockets to remain open. If Eversource wants to apply again, I assume with different approaches, they should start from the beginning rather than have short cuts ready made for them.

Thank you for your consideration,

Katie Moody
Newington, NH

May we cultivate compassion, peace and hope in the world.
