Re: DG 16-679 Rate case expense recovery surcharge reconciliation

Dear Ms. Howland:

As per the approved settlement in DG 16-769, we have charged a surcharge to the steam bills to all customers of \$0.61/Mlb from November 2016 through February 2017, and then due to an over charge of \$1,439, we applied a credit all customers \$0.06/Mlb on steam bills for March, April and May.

The amount that was approved to be collected was \$39,918.75. We actually collected, after the credit had been given, was \$39,880.

Yours Truly,

A handwritten signature in black ink that reads "Peter Bloomfield". The signature is written in a cursive, flowing style.
