**Dear State of New Hampshire PUC:**

Ref: DW 17-103 W. Swanzey Water Company, order no. 26,046, letter of 8.4.17

I am responding to a copy of a letter from W. Swanzey Water Company and their request to increase their company rates more than 50%.

My condo is part of Cobble Hill Pines and we are all connected to W. Swanzey Water Company. An increase of this magnitude is unfair to everyone living in this condo complex. We have no option of getting water from anywhere else and everyone needs water. To increase the rates so drastically will hurt every one of us financially.

Please consider this hardship to the condo owners and their families.

I understand back in 2014 the Town of Swanzey formed the Swanzey Water Study Committee to see if the town should acquire it. I hope the town gets involved in this rate increase issue.

Sincerely,

**Christine Gallagher**
