SCHEDULE FIRE PROTECTION - METERED
LONDONDERRY
PROPOSED STEP INCREASE

Availability:

This rate is applicable to all municipal fire protection service rendered in the Company's service areas for purposes of public safety, where such service is paid for from tax revenues by and of the Town.

Character of Service:

The Town shall notify the Company, in writing, of an appropriate vote by the governing body of the city, town, village or other political subdivision stating where hydrants are to be placed. Such notification must be received by the Company before the installation of any hydrant affected has begun. The Company will make every effort to maintain normal pressures at all times on the distribution system, but shall not be held liable for the failure of either the supply or distribution division of its system to adequately furnish its normal quantity of water when such failure is due to the elements, natural causes, breaks, leaks, unusual or concurrent droughts, or the waste or unlawful use of water. The installation and maintenance of fire hydrants, and the supplying of water through such hydrants, is for the sole use of authorized fire fighting personnel for the control and extinguishment of any fire, or for any other use authorized by the Company.

Rate:

The charge shall be made up of the following by town:

1) Monthly Hydrant charge

For each hydrant installed, payable in advance, from the month of installation

Current Rate	Proposed Step Increase

RATE SCHEDULE
MUNICIPAL FIRE PROTECTION SERVICE
SCHEDULE FIRE PROTECTION - METERED
LONDONDERRY
PROPOSED COMBINED INCREASE

Availability:

This rate is applicable to all municipal fire protection service rendered in the Company's service areas for purposes of public safety, where such service is paid for from tax revenues by and of the Town.

Character of Service:

The Town shall notify the Company, in writing, of an appropriate vote by the governing body of the city, town, village or other political subdivision stating where hydrants are to be placed. Such notification must be received by the Company before the installation of any hydrant affected has begun. The Company will make every effort to maintain normal pressures at all times on the distribution system, but shall not be held liable for the failure of either the supply or distribution division of its system to adequately furnish its normal quantity of water when such failure is due to the elements, natural causes, breaks, leaks, unusual or concurrent droughts, or the waste or unlawful use of water. The installation and maintenance of fire hydrants, and the supplying of water through such hydrants, is for the sole use of authorized fire fighting personnel for the control and extinguishment of any fire, or for any other use authorized by the Company.

Rate:

The charge shall be made up of the following by town:

1) Monthly Hydrant charge

For each hydrant installed, payable in advance, from the month of installation

Current Rate	Proposed Combined Increase		
\$ 13.35	\$ 16.19	(I)	21.24%

2) Inch-Foot Charge

The number of 'inch-foot' units in the distribution system is to be obtained by multiplying the number of linear feet of pipe each diameter (6" and larger) by the diameter in inches. The total number of 'inch-foot' units in the distribution system will be determined as of January 1st each year and will be the base for computing the 'inch-foot' charge for the entire year with one-fourth to be billed each quarter or one-twelfth to be billed each month.

Charge for each inch-foot unit to be

Current Rate	Proposed Combined Increase		
\$ 0.12264 per year	\$ 0.14869	(I)	21.24%

Terms of Payment:

Bills under this rate are net; will be rendered monthly, and are due and payable at the office of the Company on the due date as stated on the water bill.

Special Provisions:

All hydrants, lead valves, branches and other appurtenances shall be and remain the property of the Company.
