RE: Docket DE 17-136: Energy Efficiency Resource Standard Programs

Dear Chairwoman Martin,

On behalf of Unitil Energy Systems, Inc. (the "Company"), I enclose a revision to the 2020 Annual Report filed June 1, 2021. The Company has determined that, due to formula errors, several values in the 2020 Annual Report related to program participation were either not included or reflected an inaccurate value. These have been updated in the attached revised Report. The Company also discovered a display error related to the actual annual MMBtus achieved. This display error only occurs on the cost-effectiveness page of the Report and did not impact the overall performance incentive calculation. Upon discovering the error, the Company re-examined all values and formulas to ensure there are no other errors or omissions in the Report. Places where the values have changed have been highlighted for ease of review.

Consistent with the Commission's suspension of paper filings, the Companies submit these reports in electronic format only, but will provide hard copies if and when requested.

Regards,

A handwritten signature in black ink, appearing to read "Patrick Taylor", with a long horizontal flourish extending to the right.
