Re: Initial Application for Alternative Utility Services, Inc. to become a licensed aggregator in the state of New Hampshire

Alternative Utility Services, Inc. (AUS) was founded in May, 1993 to provide natural gas and electric consultation and brokerage services when the market first opened up. We currently service customers from residential to large commercial/industrial in over 20 states and maintain licenses wherever required. Fritz Kreiss has been the company's president since the company's inception and continues to play an integral role in the company's day to day operations.

Alternative Utility Services, Inc. has reviewed all of Chapter PUC 3000 rules and will not attempt to enroll our clients with a licensed competitive natural gas supplier in the State of New Hampshire until our application has been approved. Enclosed you will find an original application, 2 copies and electronic versions on CD with attachments.

I have prepared this application and can be contacted should you have any questions or require additional information to process this request.
