In Order No. 26,092, the Commission approved the process Eversource used to solicit power from the competitive market following divestiture of its generation assets, and the process the Company will utilize to transition its customers to the new competitively procured Default Energy Service rate. On March 1, 2018, Eversource's Alternate Default Energy Service Rate ADE will terminate. All customers served under Rate ADE will transition to Default Energy Service Rate DE at the 11.25 cents per kilowatt-hour rate approved in Order No. 26,089. The Company notified each of the large commercial/industrial customers impacted by this change through a customer letter with follow-up conducted by our Account Executive team.
