**2) Identification of the independent monitor or monitors responsible for verifying the production of energy from the applicable customer-sited sources pursuant to Puc 2506.01(b)(3).**

Independent Monitor Name: Adam Kohler, PE

Telephone: \_\_\_\_\_ Cell: 603-969-6459

Email address: [adam@kohlerenergyservices.com](mailto:adam@kohlerenergyservices.com)

<sup>1</sup> See Puc 2506, page 19.

<sup>2</sup> See Puc 2502.13, page 3, and Puc 2504.13, page 11.

- 3) In the space provided below, please provide a disclosure statement indicating whether there is any family or business relationship between such independent monitor, or monitors, and the aggregator pursuant to 2506.01(b)(4). (The box provided will expand to accommodate the disclosure statement.)

No person employed by Froling Energy has a familial relationship with Adam Kohler. A limited business relationship between Froling Energy and Adam Kohler occurred in 2018 during a project done by Froling Energy at the University of New Hampshire. As an employee of UNH, Adam was somewhat involved in the supervision of the project. In the long term past, Adam worked for us as the Engineer of record on a few biomass boiler projects. At this time the only relationship that Froling Energy has with Adam is as an Independent Monitor.

- 4) In the space provided below, please provide a description of how the monitors will be compensated for services pursuant to 2506.01(b)(5). (Please note that the independent monitor is paid by the customer-sited source, and not by the aggregator.) (The box provided will expand to accommodate the explanation of the independent monitor is compensated.)

Adam Kohler has been hired by Froling Energy multiple times to verify Froling Energy's installation of Thermal REC equipment (BTU Meter, Flow Meter and Data Logger) and the resulting accumulated Thermal RECs during the first year of operation at numerous customer sites. In each case he is paid by a lump sum plus by an hourly rate should extra time be required for the tasks. Adam's services are provided as part of our contracts with our customers, often as required by project bid documents. Therefore, even though we may pay him his fees for these services, Adam Kohler works directly for our clients. After the first year of operation, ongoing fees that Adam charges regarding his activities verifying equipment and Thermal REC accumulation are paid for directly by the clients.

- 5) Puc 2506.01 (c) states that an aggregator may aggregate fractional or whole certificates only if:

- (1) The associated generation uses the same energy resource and technology, as described in Puc 2502.07<sup>3</sup> and Puc 2502.08.<sup>4</sup>
- (2) The source is otherwise eligible to acquire certificates pursuant to Puc 2504.03<sup>5</sup>
- (3) The energy associated with the certificates was produced in the same calendar year.

Please initial that you have a full understanding of and agree to abide by Puc 2506.01(c).	JAV
