Re. Pennichuck Water Works, Inc. Rate Increase Sought

Dear New Hampshire Public Utilities Commission;

I am writing to register my strong opposition against granting this exorbitant rate increase. As a five-year resident of Nashua, I can vouch for the already burdensome rate of the current charges which supply us with poor quality, bad tasting water. I have no confidence that Pennichuck would improve the water quality were you to grant this rate increase.

I urge you to not grant this request.

Thank you,

Bonnie L. Getz
