Dear NH PUC;

In these difficult times, how can you justify the egregious rate increases granted to Eversource? (My last two invoices have been almost \$500 each!)

Meanwhile, power and energy companies flaunt fancy graphics on new trucks and helicopters. You grant permits to tear up our streets for so-called improvements that we customers end up paying for through the "add-ons" in our invoices. The streets are never properly repaved.

Our Pennichuck water smells strongly of chlorine and the limit of PCB's in our water was raised! Is Nashua to become another Flint, MI?

You have enabled these huge companies through the rate increases you have granted, and they are out of control. It is time to end these outrageous practices and begin working for the citizens of NH.

Respectfully,

*Bonnie L. Getz*
