

Addendum RO-1

Qualification of Rebecca E. Ohler

My name is Rebecca E. Ohler. I am employed as the Administrator of the Technical Services Bureau with the New Hampshire Department of Environmental Services, Air Resources Division (NHDES). My business address is 29 Hazen Drive, PO Box 95, Concord, NH 03302-0095.

I earned a Bachelor of Science in Environmental Conservation from the University of New Hampshire in 1982. Starting in 1989 I was employed as a field inspector for four years by the Harris County Pollution Control Department in Pasadena, Texas. I subsequently was employed by the Texas Air Control Board (now the Texas Council on Environmental Quality) for 6 years where I conducted compliance inspections on major petrochemical and energy facilities in the Houston area.

In 1998 I was employed by NHDES as a stationary source inspector in the Compliance Bureau, moving to the Technical Services Bureau in 1999 where I worked in the Mobile Sources Section. In this position I facilitated the Transportation and Land Use working group in the development of the state's Climate Action Plan.

Since 2010, I have been the Transportation and Energy Programs manager and then the Technical Services Bureau Administrator for NHDES, overseeing the work of the Mobile Sources Section as well as managing many aspects of the department's climate and energy programs. In these positions, I have worked closely with the Public Utilities Commission in evaluation of proposals for funding under the former Greenhouse Gas Emission Reduction Fund as well as the Renewable Portfolio Standard's Renewable Energy Fund. I represent the department on the state's Interagency Energy Efficiency Committee, the New England Governors/Eastern Canadian Premiers Transportation and Air Quality Committee (co-chair), the NEG/ECP Climate Change Steering Committee, and the Northeast/Mid-Atlantic Transportation Climate Initiative. On behalf of the department I assist in development of policy positions relative to energy and climate issues, and prepare and present testimony to the New Hampshire General Court on these issues.

Addendum CS-1

Qualification of Christopher J. Skoglund

My name is Christopher J. Skoglund. I am employed as the Climate and Energy Program Manager in the Technical Services Bureau with the New Hampshire Department of Environmental Services, Air Resources Division (NHDES). My business address is 29 Hazen Drive, PO Box 95, Concord, NH 03302-0095.

I earned a Bachelor's of Arts in Biology from Johns Hopkins University in 1997 and a Master's of Science in Natural Resources from the University of New Hampshire in 2012. In between those degrees, I was principally employed teaching environmental and science education to middle and high school students across the country.

In 2007, I began working part-time as a Climate Program Specialist working on developing background data and analysis and planning tools to support a potential state climate action plan. In 2008, I was hired full time as an Energy and Transportation Analyst, primarily coordinating the development of the 2009 NH Climate Action, which included managing the analysis of the electric power, building, and transportation sectors. In this position, I was also engaged in transportation planning and analysis, working with the NH Department of Transportation and the four Metropolitan Planning Organizations in the southeast corner of the state.

In 2010, I moved into the Energy and Climate Analyst position, focusing more on building and electric sectors with high-level energy and climate-change planning focused at the local, state and regional level. In 2012, I oversaw the state's Energy Efficiency and Sustainable Energy Board's development of the 2012 EESE Board Review on the Independent Study of Energy Policy Issues ("SB 323 (2010) Study").

In 2016, I moved to Climate and Energy Program Manager position at NHDES. In this roll, I regularly tracked legislation and testified before the state legislature. I have also been a regular participant in PUC dockets, including Grid Mod, Net-Metering, the EERS, and more recently the two active rate cases and the Liberty Utilities Least Cost Integrated Resource Plan.

I am also a member of the New England Governor's Eastern Canadian Premiers (NEG/ECP) Climate Change Steering Committee, and helped lead efforts in 2015 and 2016 to establish a new regional GHG target for 2030. In 2016 and 2017, I lead the successful effort to develop an update to the region's 2001 climate action plan, a plan that was economy wide and inclusive of the electric power, building, and transportation sectors.

Throughout this my time at NHDES, I have maintained the statewide GHG inventory, inclusive of the electric power, building, and transportation sectors and taken a lead role in the GHG inventory for the entire NEG/ECP region.
