**Re: SUPPLEMENT TO DOCKET DE 20-011  
PETITION OF PUBLIC SERVICE COMPANY OF NEW HAMPSHIRE D/B/A  
EVERSOURCE ENERGY FOR LICENSE TO CONSTRUCT AND MAINTAIN  
ELECTRIC LINES OVER AND ACROSS THE ISINGLASS RIVER IN  
STRAFFORD AND STATE OWNED LAND IN ROCHESTER AND RAYMOND,  
NEW HAMPSHIRE**

Dear Director Howland:

Please accept this letter as a supplement to Public Service Company of New Hampshire d/b/a Eversource Energy's above referenced petition for a license for the 391 Line to cross public waters and State-owned land. The petition filed under cover letter dated January 28, 2020 incorrectly referred to "Public Land Span" with regard to the Isinglass River crossing in Section 5, when said reference should have been to "Public Waters Span".

Said Petition at Section 5 also identified the State-owned land span in Rochester, depicted on Exhibit 2, as 75', when in fact that crossing span is 116'. Enclosed herewith is a replacement Exhibit 2 depicting said State-owned land crossing in Rochester, where the horizontal distance of the crossing span has been revised to 116'.

There are no further revisions to the Petition or supporting Exhibits at this time.

Pursuant to the Commission's rules, an electronic filing of the enclosed Petition is also being made with the Commission on this date.

Thank you for your assistance. Please let me know if you have any questions.

Sincerely,

Erik Newman  
Real Estate and Transactional Counsel
