Re: SUPPLEMENT TO DOCKET DE 20-014

Dear Director Howland:

Please accept this letter as a supplement to Public Service Company of New Hampshire d/b/a Eversource Energy's above referenced petition for a license for the M127 Line to cross public waters and State-owned land.

This supplement comprises submission of the plan view drawing for Exhibit 5, depicting the location of Structures 231 through 237. The enclosed drawing should replace the duplicate Exhibit 6 plan view drawing (depicting Structures 237 through 242) which was inadvertently originally enclosed at page 11 (of 14) of the filed petition and Exhibits, instead of the intended enclosed drawing. This enclosure is consistent with the statements in the petition narrative and does not otherwise require modification or revision to the filed petition

Pursuant to the Commission's notice of March 17, 2020, this filing is only being provided by email.

Thank you for your assistance. Please let me know if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Erik Newman", written over a horizontal line.

Erik Newman
Senior Counsel
