Re: Delivery Service Tariff NHPUC No. 9 Tariff Pages Effective April 1, 2020 – Line Extension Rates

Dear Ms. Howland:

In compliance with the secretarial letter issued by the Commission on March 27, 2020 in Docket No. DE 20-025 (Line Extension Tariff Update), the following tariff pages are transmitted herewith:

NHPUC No. 9 - Electricity Delivery
Public Service of New Hampshire dba Eversource Energy

5th Revised Pages 26 and 27

Effective: April 1, 2020

In its secretarial letter, the Commission determined Eversource's updated cost per foot rates of \$29.51 for overhead single-phase construction and \$16.22 for underground single-phase construction are just and reasonable and are approved for effect on April 1, 2020.

Black-lined tariff pages denoting the changes associated with the updated cost per foot rates were filed with the Commission on February 28, 2020. Black-lined tariff pages denoting the updated issue date and incorporating the authorization footnote are included in this submittal for easy identification of the changes.

Please let us know if there are any questions concerning this filing. We are sending one original and two copies of all filing materials.

Very truly yours,

Jennifer Ullram
