Subject: Please Reverse Your Rejection of Energy Efficiency

EXTERNAL: Do not open attachments or click on links unless you recognize and trust the sender.

To Whom it May Concern:

Your recent decision to weaken New Hampshire's movement towards greater energy efficiency makes no sense to us, not to anyone else who we speak with about it.

Energy efficiency saves consumers money in the long run, it also helps New Hampshire do our part to help stem worsening climate change impacts, and it creates decent jobs for New Hampshire workers who are involved in helping citizens become more energy efficient. It seems as if you are serving someone other than New Hampshire citizens.

Please reverse your recent rejection of energy efficiency progress, for all our sakes.

Sincerely,

Roger & Susan Shamel
262 E Washington Road
Hillsborough, NH 03244
