To Whom It May Concern,

The sudden halt to the NH Saves Energy Conservation Program in NH is a dramatic step backwards for our State as we try and move towards Energy Security. I have yet to hear a rational explanation? This type of program should be expanded not eliminated. The Residents and Businesses of NH have come to rely on this program to help fund our energy efficiency efforts. Please work to restore this critical program ASAP, it makes good business sense for the future of our State!

Cooperatively,

Ed King, General Manager
