Dear Ms. Howland:

In compliance with the Commission's Order No. 26,451 in Docket No. DE 20-085 (Order Approving Adjustment to Stranded Cost Recovery Charge), the following tariff pages are transmitted herewith:

NHPUC No. 10 - Electricity Delivery
Public Service of New Hampshire dba Eversource Energy

1st Revised Page 41, 42, 45, 46, 47, 50, 51, 52, 55, 59, 62, 66, 67, 72, 74
and 81

Effective: February 1, 2021

These tariff pages implement an increase in the Company's stranded cost recovery charges effective February 1, 2021 as approved by the Commission in the Orders referenced above.

The Commission also approved a decrease in the Company's Default Energy Service Rate DE effective February 1, 2020 in its Order No. 26,438. Revised tariff pages were filed with the Commission in compliance with this Order on January 5, 2021.

For customers receiving delivery service only from Eversource, the combined impact of all changes is an 4.5% increase in the overall average retail rate. For customers receiving both delivery service and energy service from Eversource, the combined impact of all rate changes is a 0.1% decrease in the overall average retail rate.
