RE: Docket No. DE 20-095,

Dear Director Howland:

Attached for filing please find of Public Service Company of New Hampshire d/b/a Eversource Energy's ("Eversource") support for an adjustment to its Stranded Cost Recovery Charge ("SCRC"). Included as attachments are the testimony and attachments of Erica L. Menard supporting an adjustment to the SCRC.

This submission includes Eversource's proposal for the SCRC rates applicable to each rate class consistent with 2015 Public Service Company of New Hampshire Restructuring and Rate Stabilization Agreement in Docket No. DE 14-238, as well as the Settlement Agreement in Docket No. DE 19-142 creating the Chapter 340 Adder. As described in the included testimony and attachments, this updated proposed adjustment, including the RGGI adder, would result in a decrease in the current average SCRC rates for all rate classes. The table below shows the current rate class specific average SCRC rates, and the updated rate class specific average SCRC rates excluding the RGGI adder but including the Ch. 340 Adder, which rates would take effect from August 1, 2020 to January 31, 2021.

Rate Class	Current Rate (cents/kWh)	Updated Rate (cents/kWh)
R	1.143	1.051
G	1.086	0.960
GV	0.975	0.866
LG	0.635	0.564
OL/EOL	1.280	0.977

Thank you for your assistance with this matter. Please contact me with any questions you may have.

Regards,
