The intervenors respectfully request to **withdraw** the Motion to Dismiss that was filed electronically via the service lists for the DW 20-112 docket on 8/30/21. We, the intervenors, have no legal expertise in PUC filings and apologize for any missteps in attempting to represent our position. It has come to our attention that we may have erred in our verbiage while making our point. What we seek is actually a *WITHDRAWAL* of the rate case DW 20-112, by the Petitioners, in a good faith effort (non-QUID-PRO-QUO as currently proposed in DW-21-090), to come to a reasonable resolution of DW 21-090, by PUC standards. We will be reaching out to the Petitioners directly regarding our request. We understand that while there may be no legal precedent for such an action, it would go a long way toward showing that the Petitioners are considerate of the capabilities of the rate payers and the PUC, as the docket DW 21 – 090 continues forward.
