Other Rulings:

The following two questions were raised by New Hampshire Department of Energy:

- 1) Due to the new PUC/Dept of Energy structure, the Department of Energy inquired as to whether parties should contact the clerk's office to ascertain the Commission's schedules and availability for hearing dates or whether it would be preferred to simply identify a month or set of weeks during which the parties propose a hearing be held. The Commission indicated the latter option was preferred when a proposed schedule is submitted.
- 2) Submission of Live Excel spreadsheets. Energy noted the requirement to file them in a separate docket and inquired as to how that should occur. The Commission heard from the parties and took the matter under advisement.
