

SPECIAL CONTRACT – WATER
CONTRACT NO. NHPUC 2022-__
PENNICHUCK WATER WORKS, INC.
WITH
TOWN OF HUDSON

Date of Signature: _____

Effective Date: July 1, 2021

Date of Termination: June 30, 2029

Authorized in Docket No. DW _____

NHPUC Order No. _____

Dated: _____

2022 Wholesale Water Supply Contract

This 2022 Wholesale Water Supply Contract ("Agreement") is made as of the 25th day of October, 2022 by and between Pennichuck Water Works, Inc., a New Hampshire corporation with an address of 25 Walnut Street, Nashua, New Hampshire 03060 ("Company") and the Town of Hudson, acting by and through its Board of Selectmen, with a principal place of business at 12 School Street, Hudson, New Hampshire, 03051 ("Town").

WHEREAS, the Company and the Town are parties to a Wholesale Water Supply Contract dated July 12, 2005 ("2005 Contract"),

WHEREAS, the Company and the Town wish to terminate the 2005 Contract and enter into a new agreement under which the Company would continue to make water available to the Town for purchase at a wholesale rate.

NOW, THEREFORE, in consideration of the foregoing and the terms and conditions set forth below, the parties agree to the following deviations from the Company's otherwise applicable terms and conditions of service:

1. Term. This Agreement shall be binding upon the parties upon execution by both the Town and the Company, but the terms hereof shall not take effect until any necessary approval of the New Hampshire Public Utilities Commission ("NHPUC") has been obtained. This Agreement shall remain in effect for an initial period of two (2) years from July 1, 2021 ("Initial Term"), subject to extension of the term pursuant to Section 2 or termination pursuant to Section 2 or Section 10.
2. Renewal Terms. The term of this Agreement shall be automatically extended for three additional terms of two (2) years each (each a "Renewal Term") unless either party gives written notice to the other, at least twelve (12) months prior to the date on which the Initial Term or any Renewal Term expires, of its intention to terminate the Agreement at the expiration of the Initial Term or the then-current Renewal Term, as the case may be.
3. Delivery Point and Metering.
 - (a) The water to be sold by the Company to the Town under this Agreement shall be delivered by the Company to the Town at the point of interconnection between the Town's water system and the Company's water system on the Nashua side of the Taylor Falls Bridge ("Interconnection Point").
 - (b) The Company shall, at its own cost, install and maintain metering equipment ("Meter") on the West side of the Merrimack River in the Taylor Falls pumping station located approximately 700 feet westerly from the end of the Interconnection Point, which shall be used to measure the quantity of water taken by the Town on a monthly basis.
 - (c) In addition, the Company, which is the current owner and operator of the E Street Interconnect Station in Nashua, shall maintain it at its own cost. For any upgrades to the E Street Interconnect Station facility related to a capacity increase for the Town, the

Town shall pay a percentage of the total upgrade cost. The Town's percentage cost for the upgrade shall be calculated by dividing the Town's Total Required capacity, including the increase requested by the Town, by the sum of the Town's capacity plus the average of the last three years usage by PEU at the Sullivan Road Meter Pit. The percentage contribution by the Town shall be recalculated each time a station upgrade is required with the calculation being based on each party's usage from the year prior to the upgrade being completed.

(d) The Meter shall be inspected and calibrated by the Company in accordance with the applicable regulations of the NHPUC. A copy of any inspection and calibration reports shall be available at the Company's principal office for examination by the Town during normal business hours upon reasonable notice from the Town.

(e) The Town may have the accuracy of the Meter tested by an independent third party at the Town's expense at any time, but not more frequently than once each month, provided that the Town gives the Company at least seven (7) days advance written notice of its desire to test the Meter. The Company shall have the right to be present during any such test. If the Meter reads within the specifications established by the NHPUC, the cost of such test shall be borne by the Town. If the Meter does not meet the specifications established by the NHPUC, the cost of the tests shall be paid by the Company, and the Company shall adjust its next bill to the Town accordingly.

(f) In the case of missing or inaccurate flow records due to a faulty Meter or other circumstances, the Company shall calculate the payments due from the Town using a reasonable estimate of the flow based on past records and other relevant data for a comparable period.

4. Expansion of Service.

(a) The Town shall have the right, at its sole expense, to construct and connect transmission mains, main pipe extensions, hydrant branches and service connections located within Hudson to the Interconnection Point, in accordance with all applicable industry engineering standards and practices, to supplement its current service and provide additional service within the Town, but not to provide water service outside of the Town.

(b) For any future expansion of Company services, operations or infrastructure that may affect the Town's distribution system and or storage tanks, the Company shall provide the Town a summary of the planned expansion in writing for Town review and comment. If a Company water main expansion results in a necessary but unplanned upgrade to the Town's distribution system, then the Company shall be responsible for those upgrades.

5. Quantity of Water.

(a) Maximum Daily Demand. Subject to the provisions of Section 5(b) and Section 6, the Town shall have the right to take up to, but not in excess of, two million, one hundred thousand (2,100,000) gallons of water per day ("GPD") at the Interconnection Point; provided, however, that water taken for non-training firefighting purposes shall not be counted toward such maximum quantity.

(b) Maximum Peak Demand. At all times, the Town's peak draw at the Interconnection Point shall be limited to 1,460 gallons per minute; provided, however, that water taken for non-training firefighting purposes shall not be counted toward such allowable draw. If PWW, in its sole discretion, determines that, due to circumstances beyond PWW's reasonable control, its water supply is impaired, PWW may, upon twenty-four (24) hours' notice to the Town reduce the maximum volume that may be taken by the Town. PWW will promptly notify the Town when such circumstances cease to exist, and, thereupon, the rights of the Town to take water as set forth in this Section 3(a) shall be restored. In exercising its discretion concerning a reduction in the amount of water thereafter to be taken by the Town, PWW shall afford at least as favorable treatment to the Town as to its other wholesale water supply customers, except insofar as its special contracts, existing on the Effective Date, with such customers or the rules of the NHPUC require a different standard to be applied with respect to such customers. PWW will promptly employ its commercially reasonable efforts to cure such inadequacy or impairment. The Town shall not be entitled to compel PWW to supply it with any specific quantity of water nor shall it be entitled to any damages as a result of PWW's determination that its supply is inadequate or impaired.

6. Increase in Quantity of Water. If the Town wishes to increase the maximum quantity of water that it is permitted to purchase under Section 5, it shall provide the Company with written notice sufficient for the Company to evaluate the capacity of its facilities to produce water to meet such increased demand in light of existing and reasonably anticipated additions to demand on the Company's own system. Such notice shall be given at least one year in advance of the desired implementation date of the increase. The Company shall respond to such a request within ninety (90) days, indicating whether it agrees to provide the additional supply. If the Company agrees to increase the maximum quantity of water that may be taken by the Town, the Company and the Town shall negotiate in good faith to determine the price of any such increase based on the cost of the incremental capacity. If despite such good faith negotiations, the parties are unable to agree on the cost of the incremental capacity, the Company shall not be required to increase the maximum quantity provided for in Section 5. Any increase in the maximum quantity of water to be purchased under this Agreement shall be reflected in an amendment to this Agreement, signed by the parties. Such amendment shall become effective upon execution and will require additional approval of the NHPUC and is subject to a Cost of Service Study based on the revised capacities.

7. Fees. The Town shall pay the Company the following amounts for the water supplied or to be supplied by the Company under this Agreement:

(a) Demand Charge. The Town shall pay the Company an annual demand charge of \$457,441 (the "Annual Demand Charge") payable to the Company in equal monthly installments. The Demand Charge is subject to the determination the NHPUC as part of the proceeding to approve this Agreement. The Demand Charge shall be due and payable without regard to the amount of water actually taken by the Town or any volumetric charges for such purchases. If there is a period of time, one week or longer in continuous duration, where the Company cannot deliver the 1.0 MGD requested by the Town the Demand Charge in that year will be reduced by the number of days where 1.0 MGD is not available to the Town divided by 365 multiplied by the annual Demand Charge. The Company may only adjust the Demand Charge in the event a new cost of service allocation study is obtained by PWW (a "Cost of Service Study") and approved by the NHPUC and where the adjustment to the Demand Charge is in direct response to the need to comply with regulations of the United States Environmental Protection Agency or the New Hampshire Department of Environmental Services and where such compliance involves the need to make material investment in or upgrades to the material water supply facilities that serve the Town. Such material investments or upgrades include those made to, for example, PWW's Nashua water treatment plant, the Pennichuck Brook Dams, the Merrimack River Raw Water Pumping Station, and the Fifield Tanks. The Demand Charge shall only be adjusted to the extent that the material upgrade is necessary to comply with the regulations and is required to serve the Town, and where the Demand Charge has been approved by the NHPUC.

(b) Volumetric Charge. The Volumetric Charge will be \$1.0093 per 100 cubic feet, for a minimum guaranteed of 487,968 CCF per year over a two-year period with the start date being the Initial Term date of July 1, 2021. The Volumetric Charge is subject to the determination of the Volumetric Rate by the NHPUC as part of the proceeding to approve this Agreement and such approval, if occurring after July 1, 2021, may require issuance of corrected bills to reflect the approved rate for usage as of July 1, 2021. In such an event, the difference in revenues between what was actually billed for service July 1, 2021 forward and what would have been billed under the new approved rates will be used to create a bill credit. This bill credit will be returned over the number of months that the credit was earned, similar to the minimum guaranteed usage credit described below.

The evaluation of minimum guaranteed usage shall be calculated in August of each year and shall look back over the Town's usage for the two preceding years from July 1 to June 30 and divided by 12 months. The Town will be billed each month for the number of days in that monthly billing cycle times 1,336.9 CCF per day times the approved volumetric charge. If the Town's actual usage for the month is less than 40,107 CCF (based on a 30-day month) the difference between the monthly billed volumetric consumption and the Town's actual consumption shall be carried as a credit into the following month's bill. The credit will reduce the next month's billable consumption if the Town's actual consumption exceeds the minimum monthly consumption of 40,107 CCF. The Town will carry any credits due to offset monthly consumption for up to two years. If at the end of any two-year period the Town has a consumption credit at the end of that two year period that credit will be reset to zero for the start of the next two-year period. The Volumetric Charge may

only be adjusted by the same percentage and at the same time as any future change in the volumetric rates for general metered service, as adjudicated by the NHPUC, which the Company charges to its core system customers in the City of Nashua. The Volumetric Charge includes modifications made from time to time by adjustments to the Qualified Capital Adjustment Charge, as approved by the NHPUC. Source: *Pennichuck Water Works, Inc.*, Docket No. DW 19-091, Order No. 26,429 (December 2, 2020).

(c) Meter Charge. The Monthly Fixed Meter Charge shall be set at \$78.33 per month and reflects the cost to read and bill the Town on a monthly basis in addition to the cost to test the Town wholesale meters on an annual basis. The Monthly Fixed Meter Charge subject to the determination of the Monthly Fixed Meter Charge by the NHPUC as part of the proceeding to approve this Agreement. Thereafter, the monthly fixed meter charge may only be adjusted by the same percentage and at the same time as any future change in the volumetric rates for general metered service, as adjudicated by the NHPUC, which the Company charges to its core system customers in the City of Nashua.

(d) Invoices. The Company shall bill the Town on a monthly basis for water taken by the Town under this Agreement. Payment shall be due on presentation of each invoice and amounts unpaid after thirty (30) days shall be subject to one and one-half (1-1/2%) percent interest per month on the unpaid balance from the date of such invoice.

8. Use of Mains and Boosters.

- (a) The Town shall wheel water from the Company through the Town's transmission and distribution mains to limited service areas of Pennichuck East Utility, Inc. ("PEU"), an affiliate of the Company, in Litchfield, Pelham, Londonderry and Windham (limited service areas are as defined in Appendix "A" of this agreement) that are interconnected with the Town's water system, provided that the Company's right to transmit its water through the Town's distribution system shall be contingent upon such use not significantly reducing the pressure in the Town's distribution lines (more than 10% reduction in pressure). For any water wheeled by the Town through the Town's water system for the Company, the Company shall pay the Town the Volumetric Rate plus twenty percent (20%) of the Volumetric Rate set forth in Section 7. In addition, this rate shall be adjusted by the same percentage and effective as of the same dates as any adjustment in the rates paid by core system customers in the City of Nashua.
- (b) The Company shall reimburse the Town every year for a percentage of the any capital improvements completed in that year related to the Route 102 Booster station, also known as Hickory Station, located in Hudson. The reimbursement percentage shall be based on water usage used by PEU in Londonderry via the West Road Meter Pit divided by the total flow through the Hickory Road Booster Station. The Company shall reimburse the Town for any Capital improvements completed over the past 12 months from the date of this contract approval in accordance with the formula defined in this paragraph.

9. Assignment and Sale. The Town agrees that any water provided to it by the Company shall be used only to provide service to customers within the Town who are served by the Town's water system. No water shall be sold by the Town, either directly or indirectly, to any private or investor owned water utility, municipality, village district or individual doing business or residing outside of the Town for any purpose without the Company's prior written consent.
10. Termination. In the event of a material breach of this Agreement by either party, this Agreement may be terminated by giving the breaching party written notice of termination, which notice shall set forth with specificity the nature of the claimed breach by the other party. The breaching party shall have 30 days to cure the material breach, during which time the parties shall make a good faith effort to resolve the dispute informally. Any such termination shall not be effective until three (3) months from the date of such notice. In no event may this Agreement be terminated on less than three (3) months prior written notice, except as may be determined by order of the NHPUC.
11. Miscellaneous.
- (a) Dispute Resolution. Any controversy or claim arising out of or relating to this Agreement, or the breach thereof, that the parties are unable, after a good faith effort, to settle informally may be submitted to the NHPUC, or its successor, for resolution.
- (b) Severability. If any term or condition of this Agreement is found to be unenforceable, the remaining terms and conditions shall remain binding upon the parties as though said unenforceable provision were not contained herein.
- (c) Amendments, Assignment, Governing Law. This Agreement may be amended upon the mutual agreement of the parties, subject to any required approval of the NHPUC. This Agreement may be assigned by the Company to a wholly owned subsidiary or an affiliate under common control with the Company without the prior consent of the Town. This Agreement shall be binding upon and inure to the benefit of the respective successors and legal representatives of the parties. This Agreement shall be governed by and construed under the laws of the State of New Hampshire.
- (d) Notices. All notices, requests, demands and other communications given pursuant to this Agreement shall be in writing and shall be deemed to have been given if they are delivered by hand or by nationally recognized overnight courier or mailed by certified or registered mail with postage prepaid to the Town or the Company, as the case may be, at the address first noted above or to such other address as the receiving party may have given written notice to the other party.
- (e) Action Necessary to Complete Transaction. The Town and the Company agree to execute and deliver all such other documents or instruments and take any action that may be reasonably required to effectuate the transactions contemplated by this Agreement.

- (f) Headings. The headings in each section of this Agreement are for convenience of reference only, and do not form a part hereof and in no way modify or shall be used to interpret or construe the meaning of this Agreement.
- (g) Integration. This Agreement constitutes the entire agreement and understanding between the parties regarding the subject matter hereof, and supersedes all prior understandings, agreements, statements and representation, whether written or oral, between or made by the parties. Upon taking effect, this Agreement shall supersede and terminate the 2005 Contract in its entirety.

2022 Wholesale Water Supply Contract

This 2022 Wholesale Water Supply Contract (“Agreement”) is made as of the ___ day of _____, 2022 by and between Pennichuck Water Works, Inc., a New Hampshire corporation with an address of 25 Walnut Street, Nashua, New Hampshire 03060 (“Company”) and the Town of Hudson, acting by and through its Board of Selectmen, with a principal place of business at 12 School Street, Hudson, New Hampshire, 03051 (“Town”).

WHEREAS, the Company and the Town are parties to a Wholesale Water Supply Contract dated July 12, 2005 (~~“(“2005 Contract”);”~~),

WHEREAS, the Company and the Town wish to terminate the 2005 Contract and enter into a new agreement under which the Company would continue to make water available to the Town for purchase at a wholesale rate.

NOW, THEREFORE, in consideration of the foregoing and the terms and conditions set forth below, the parties agree to the following deviations from the Company’s otherwise applicable terms and conditions of service:

1. Term. This Agreement shall be binding upon the parties upon execution by both the Town and the Company, but the terms hereof shall not take effect until any necessary approval of the New Hampshire Public Utilities Commission (~~“(“NHPUC”);”~~) has been obtained. This Agreement shall remain in effect for an initial period of two (2) years from July 1, 2021 (“Initial Term”), subject to extension of the term pursuant to Section 2 or termination pursuant to Section 2 or Section 10.
2. Renewal Terms. The term of this Agreement shall be automatically extended for three additional terms of two (2) years each (each a “Renewal Term”) unless either party gives written notice to the other, at least twelve (12) months prior to the date on which the Initial Term or any Renewal Term expires, of its intention to terminate the Agreement at the expiration of the Initial Term or the then-current Renewal Term, as the case may be.
3. Delivery Point and Metering.
 - (a) The water to be sold by the Company to the Town under this Agreement shall be delivered by the Company to the Town at the point of interconnection between the Town's water system and the Company's water system on the Nashua side of the Taylor Falls Bridge (“Interconnection Point”).
 - (b) The Company shall, at its own cost, install and maintain metering equipment (“Meter”) on the West side of the Merrimack River in the Taylor Falls pumping station located approximately 700 feet westerly from the end of the Interconnection Point, which shall be used to measure the quantity of water taken by the Town on a monthly basis.
 - (c) In addition, the Company, which is the current owner and operator of the E Street Interconnect Station in Nashua, shall maintain it at its own cost. For any upgrades to the E Street Interconnect Station facility related to a capacity increase for the Town, the

Town shall pay a percentage of the total upgrade cost. The Town's percentage cost for the upgrade shall be calculated by dividing the Towns Total ~~Required~~Required capacity, including the increase requested by the Town, by the sum of the Towns capacity plus the average of the last three years usage by PEU at the Sullivan Road Meter Pit. The percentage contribution by the Town shall be recalculated each time a station upgrade is required with the calculation being based on each party's usage from the year prior to the upgrade being completed.

(d) The Meter shall be inspected and calibrated by the Company in accordance with the applicable regulations of the NHPUC. A copy of any inspection and calibration reports shall be available at the Company's principal office for examination by the Town during normal business hours upon reasonable notice from the Town.

(e) The Town may have the accuracy of the Meter tested by an independent third party at the Town's expense at any time, but not more frequently than once each month, provided that the Town gives the Company at least seven (7) days advance written notice of its desire to test the Meter. The Company shall have the right to be present during any such test. If the Meter reads within the specifications established by the NHPUC, the cost of such test shall be borne by the Town. If the Meter does not meet the specifications established by the NHPUC, the cost of the tests shall be paid by the Company, and the Company shall adjust its next bill to the Town accordingly.

(f) In the case of missing or inaccurate flow records due to a faulty Meter or other circumstances, the Company shall calculate the payments due from the Town using a reasonable estimate of the flow based on past records and other relevant data for a comparable period.

4. Expansion of Service.

(a) The Town shall have the right, at its sole expense, to construct and connect transmission mains, main pipe extensions, hydrant branches and service connections located within Hudson to the Interconnection Point, in accordance with all applicable industry engineering standards and practices, to supplement its current service and provide additional service within the Town, but not to provide water service outside of the Town.

(b) For any future expansion of Company services, operations or infrastructure that may affect the Town's distribution system and or storage tanks, the Company shall provide the Town a summary of the planned expansion in writing for Town review and comment. If a Company water main expansion results in a necessary but unplanned upgrade to the Town's distribution system, then the Company shall be responsible for those upgrades.

5. Quantity of Water.

(a) Maximum Daily Demand. Subject to the provisions of Section 5(b) and Section 6, the Town shall have the right to take up to, but not in excess of, two million, one hundred thousand (2,100,000) gallons of water per day (“GPD”) at the Interconnection Point; provided, however, that water taken for non-training firefighting purposes shall not be counted toward such maximum quantity.

(b) Maximum Peak Demand. At all times, the Town’s peak draw at the Interconnection Point shall be limited to 1,460 gallons per minute; provided, however, that water taken for non-training firefighting purposes shall not be counted toward such allowable draw. If PWW, in its sole discretion, determines that, due to circumstances beyond PWW’s reasonable control, its water supply is impaired, PWW may, upon twenty-four (24) hours’ notice to the Town reduce the maximum volume that may be taken by the Town. PWW will promptly notify the Town when such circumstances cease to exist, and, thereupon, the rights of the Town to take water as set forth in this Section 3(a) shall be restored. In exercising its discretion concerning a reduction in the amount of water thereafter to be taken by the Town, PWW shall afford at least as favorable treatment to the Town as to its other wholesale water supply customers, except insofar as its special contracts, existing on the Effective Date, with such customers or the rules of the NHPUC require a different standard to be applied with respect to such customers. PWW will promptly employ its commercially reasonable efforts to cure such inadequacy or impairment. The Town shall not be entitled to compel PWW to supply it with any specific quantity of water nor shall it be entitled to any damages as a result of PWW’s determination that its supply is inadequate or impaired.

6. Increase in Quantity of Water. If the Town wishes to increase the maximum quantity of water that it is permitted to purchase under Section 5, it shall provide the Company with written notice sufficient for the Company to evaluate the capacity of its facilities to produce water to meet such increased demand in light of existing and reasonably anticipated additions to demand on the Company’s own system. Such notice shall be given at least one year in advance of the desired implementation date of the increase. The Company shall respond to such a request within ninety (90) days, indicating whether it agrees to provide the additional supply. If the Company agrees to increase the maximum quantity of water that may be taken by the Town, the Company and the Town shall negotiate in good faith to determine the price of any such increase based on the cost of the incremental capacity. If despite such good faith negotiations, the parties are unable to agree on the cost of the incremental capacity, the Company shall not be required to increase the maximum quantity provided for in Section 5. Any increase in the maximum quantity of water to be purchased under this Agreement shall be reflected in an amendment to this Agreement, signed by the parties. Such amendment shall become effective upon execution and will require additional approval of the NHPUC and is subject to a Cost of Service Study based on the revised capacities.

7. Fees. The Town shall pay the Company the following amounts for the water supplied or to be supplied by the Company under this Agreement:

(a) Demand Charge. The Town shall pay the Company an annual demand charge of \$457,083~~441~~ (the "Annual Demand Charge") payable to the Company in equal monthly installments. The Demand Charge is subject to the determination the NHPUC as part of the proceeding to approve this Agreement. The Demand Charge shall be due and payable without regard to the amount of water actually taken by the Town or any volumetric charges for such purchases. If there is a period of time, one week or longer in continuous duration, where the Company cannot deliver the 1.0 MGD requested by the Town the Demand Charge in that year will be reduced by the number of days where 1.0 MGD is not available to the Town divided by 365 multiplied by the annual Demand Charge. The Company may only adjust the Demand Charge in the event a new cost of service allocation study is obtained by PWW (a "Cost of Service Study") and approved by the NHPUC and where the adjustment to the Demand Charge is in direct response to a regulatory change by the need to comply with regulations of the United States Environmental Protection Agency and/or the New Hampshire Department of Environmental Services ("NHDES") which requires a and where such compliance involves the need to make material investment in, or upgrade upgrades to, the material water supply facilities that serve the Town. Such material investments or upgrades include those made to, ~~for~~ for example, PWW's Nashua water treatment plant, the Pennichuck Brook Dams, the Merrimack River Raw Water Pumping Station, and the Fifield Tanks. The Demand Charge shall only be adjusted to the extent that the material upgrade is required by necessary to comply with the regulatory change, regulations and is required to serve the Town, and where the Demand Charge has been approved by the NHPUC.

(b) Volumetric Charge. The Volumetric Charge will be \$1.00~~12~~20093 per 100 cubic feet, for a minimum guaranteed of 487,968 CCF per year over a two-year period with the start date being the Initial Term date of July 1, 2021. The Volumetric Charge is subject to the determination of the Volumetric Rate by the NHPUC as part of the proceeding to approve this Agreement. and such approval, if occurring after July 1, 2021, may require issuance of corrected bills to reflect the approved rate for usage as of July 1, 2021. In such an event, the difference in revenues between what was actually billed for service July 1, 2021 forward and what would have been billed under the new approved rates will be used to create a bill credit. This bill credit will be returned over the number of months that the credit was earned, similar to the minimum guaranteed usage credit described below.

The evaluation of minimum guaranteed usage shall be calculated in August of each year and shall look back over the Town's usage for the two preceding years from July 1 to June 30: and divided by 12 months. The Town will be billed each month for ~~40,107~~the number of days in that monthly billing cycle times 1,336.9 CCF ~~at~~per day times the approved volumetric charge. If the ~~Towns~~Town's actual usage for the month is less than 40,107 CCF (based on a 30-day month) the difference between the monthly billed volumetric consumption and the Town's actual consumption shall be carried as a credit into the following month's bill. The credit will reduce the next month's billable consumption if the Town's actual consumption exceeds the minimum monthly consumption of 40,107 CCF. The Town will carry any credits due to offset monthly consumption for up to two years. If at the end of any two-year period the Town has a consumption credit at the end

of that two year period that credit will be reset to zero for the start of the next two-year period. The Volumetric Charge may only be adjusted by the same percentage and at the same time as any future change in the volumetric rates for general metered service, as adjudicated by the NHPUC, which the Company charges to its core system customers in the City of Nashua. The Volumetric Charge includes modifications made from time to time by adjustments to the Qualified Capital Project Adjustment Charge, as approved by the NHPUC. Source: Pennichuck Water Works, Inc., Docket No. DW 19-091, Order No. 26,429 (December 2, 2020).

(c) Meter Charge. The Monthly Fixed Meter Charge shall be set at \$78.33 per month and reflects the cost to read and bill the Town on a monthly basis in addition to the cost to test the Town wholesale meters on an annual basis. The Monthly Fixed Meter Charge subject to the determination of the Monthly Fixed Meter Charge by the NHPUC as part of the proceeding to approve this Agreement. Thereafter, the monthly fixed meter charge may only be adjusted by the same percentage and at the same time as any future change in the volumetric rates for general metered service, as adjudicated by the NHPUC, which the Company charges to its core system customers in the City of Nashua.

(d) Invoices. The Company shall bill the Town on a monthly basis for water taken by the Town under this Agreement. Payment shall be due on presentation of each invoice and amounts unpaid after thirty (30) days shall be subject to one and one-half (1-1/2%) percent interest per month on the unpaid balance from the date of such invoice.

8. Use of Mains and Boosters.

(a) The Town shall wheel water from the Company through the Town's transmission and distribution mains to limited service areas of Pennichuck East Utility, Inc. ("PEU"), an affiliate of the Company, in Litchfield, Pelham, Londonderry and Windham (limited service areas are as defined in Appendix "A" of this agreement) that are interconnected with the Town's water system, provided that the Company's right to transmit its water through the Town's distribution system shall be contingent upon such use not significantly reducing the pressure in the Town's distribution lines (more than 10% reduction in pressure). For any water wheeled by the Town through the Town's water system for the Company, the Company shall pay the Town the Volumetric Rate plus twenty percent (20%) of the Volumetric Rate set forth in Section 7. In addition, this rate shall be adjusted by the same percentage and effective as of the same dates as any adjustment in the rates paid by core system customers in the City of Nashua.

(b) The Company shall reimburse the Town every year for a percentage of the any capital improvements completed in that year related to the Route 102 Booster station, also known as Hickory Station, located in Hudson. The reimbursement percentage shall be based on water usage used by PEU in Londonderry via the West Road Meter Pit divided by the total flow through the Hickory Road Booster Station. The Company shall reimburse the Town for any Capital improvements completed over the past 12

months from the date of this contract approval in accordance with the formula defined in this paragraph.

9. Assignment and Sale. The Town agrees that any water provided to it by the Company shall be used only to provide service to customers within the Town who are served by the Town's water system. No water shall be sold by the Town, either directly or indirectly, to any private or investor owned water utility, municipality, village district or individual doing business or residing outside of the Town for any purpose without the Company's prior written consent.
10. Termination. In the event of a material breach of this Agreement by either party, this Agreement may be terminated by giving the breaching party written notice of termination, which notice shall set forth with specificity the nature of the claimed breach by the other party. The breaching party shall have 30 days to cure the material breach, during which time the parties shall make a good faith effort to resolve the dispute informally. Any such termination shall not be effective until three (3) months from the date of such notice. In no event may this Agreement be terminated on less than three (3) months prior written notice, except as may be determined by order of the NHPUC.
11. Miscellaneous.
 - (a) Dispute Resolution. Any controversy or claim arising out of or relating to this Agreement, or the breach thereof, that the parties are unable, after a good faith effort, to settle informally may be submitted to the NHPUC, or its successor, for resolution.
 - (b) Severability. If any term or condition of this Agreement is found to be unenforceable, the remaining terms and conditions shall remain binding upon the parties as though said unenforceable provision were not contained herein.
 - (c) Amendments, Assignment, Governing Law.— This Agreement may be amended upon the mutual agreement of the parties, subject to any required approval of the NHPUC. This Agreement may be assigned by the Company to a wholly owned subsidiary or an affiliate under common control with the Company without the prior consent of the Town. This Agreement shall be binding upon and inure to the benefit of the respective successors and legal representatives of the parties. This Agreement shall be governed by and construed under the laws of the State of New Hampshire.
 - (d) Notices. All notices, requests, demands and other communications given pursuant to this Agreement shall be in writing and shall be deemed to have been given if they are delivered by hand or by nationally recognized overnight courier or mailed by certified or registered mail with postage prepaid to the Town or the Company, as the case may be, at the address first noted above or to such other address as the receiving party may have given written notice to the other party.
 - (e) Action Necessary to Complete Transaction. The Town and the Company agree to execute and deliver all such other documents or instruments and take any action that

may be reasonably required to effectuate the transactions contemplated by this Agreement.

- (f) Headings. The headings in each section of this Agreement are for convenience of reference only, and do not form a part hereof and in no way modify or shall be used to interpret or construe the meaning of this Agreement.
- (g) Integration. This Agreement constitutes the entire agreement and understanding between the parties regarding the subject matter hereof, and supersedes all prior understandings, agreements, statements and representation, whether written or oral, between or made by the parties. Upon taking effect, this Agreement shall supersede and terminate the 2005 Contract in its entirety.

Special Contract with Town of Hudson
Responses to DOE Data Requests – Set 1

Date Request Received: 5/16/22
Request No. Energy 1-2

Date of Response: 5/26/22
Witness: Donald L. Ware

REQUEST: Please confirm that, except for costs specifically attributable to the special contract customer, the COSS model used to determine the cost for the Hudson special contract is the same as the model used for the Anheuser-Busch (A-B) special contract

RESPONSE:

The COSS model used for both the Hudson and A-B special contract are identical with the exception of the cost allocations attributable to each special contract customer.

Pennichuck Water Works, Inc.
DW 22-029

Special Contract with Town of Hudson
Responses to DOE Data Requests – Set 1

Date Request Received: 5/16/22
Request No. Energy 1-3

Date of Response: 5/26/22
Witness: Donald L. Ware

REQUEST: During the May 10, 2022, technical session PWW responded to DOE's inquiry regarding differences between specific costs attributable to Hudson and specific costs attributable to A-B, and why, in the COSS used for each contract. Please provide a write-up that summarizes that response.

RESPONSE:

The differences between the Hudson and A-B COSS can be found in Sch 1, Rate Base and Sch 2 Revenue Requirement. These two schedules apply allocations of:

1. Rate Base to Hudson and A-B based on which assets are required to serve each entity. The allocation of rate base is used to allocate an appropriate share of PWW's CBFRR, 1.0 DSRR and 0.1 DSRR to both entities.
2. Operating Expenses based on the cost of operating the allocated assets. The allocation of operating expenses is used to allocate an appropriate share of PWW's Material Operating Expenses, MOEF, and non-material operating expenses to both entities.

When viewing the allocations of rate base there are differences in allocations to Hudson and A-B in the following Chart of Accounts for the following reasons:

1. Account 303 Land – Hudson is allocated rate base for the lands/Right of Ways associated with the E Street Booster Station, certain Right of Ways associated with the distribution mains between the Water Treatment Plant and the Fifield Tanks and the land associated with the Fifield Tanks. A-B does not benefit from those assets while Hudson does.
2. Account 304 Structure – Hudson is allocated rate base associated with the E-Street Station where A-B is not because the E-Street Booster Station is exclusive to providing water to Hudson but is not required to deliver water to A-B.
3. Account 311 Pumping Equipment – Hudson is allocated rate base associated with the pumping equipment in the E-Street Station where A-B is not because the E-Street Booster Station is used exclusively to provide water to Hudson but is not required to deliver water to A-B.

4. Account 330 Tanks – Hudson is allocated rate base associated with the Fifield Tanks where A-B is not because the Fifield tanks are not required to deliver water to A-B.
5. Account 331 Transmission and Distribution Mains – Allocation of the rate base associated with Transmission and Distribution mains is based on the inch-feet of water main required to serve Hudson and that required to serve A-B.

The Cost of Service Studies include tabs which detail assets, by asset and by Chart of Account, which assets are used to serve Hudson or A-B. This information is used to determine the overall value of assets that are allocated to each entity.

When viewing the allocations of operating expense on Sch 2 RR the differences in allocations to Hudson and A-B based on the operating expense activities which need to be carried out to operate and maintain the assets necessary to provide service to Hudson and A-B. A review of the P&L tab found in both COSS details which expense accounts are allocable to Hudson and A-B on an account-by-account basis. The account expenses that are allocable are then allocated to Hudson and A-B based on the COSS allocation factors.

Special Contract with Town of Hudson
Responses to DOE Data Requests – Set 2

Date Request Received: 7/7/22
Request No. DOE 2-1

Date of Response: 7/18/22
Witness: Donald L. Ware

REQUEST: Please fully explain why a special contract, rather than PWW's tariff, is justified as the basis for the rates charged to Hudson.

RESPONSE:

A Special contract is appropriate for Hudson based on the facts detailed in my testimony and as follows:

1. Hudson has other water supply options. There is a benefit to all of PWW's other customers in having Hudson as a special contract customer. The proposed rates are Cost of Service Based ensuring that Hudson pays its share of PWW's fixed and operating costs, including a contribution to PWW's general and administrative costs. If Hudson were to be charged the retail rate, instead of this special contract rate, they would likely find a less expensive source of supply elsewhere and purchase no water from PWW. If PWW lost Hudson as a customer, PWW's G-M customers rates would be higher than they are now because the rates would have to cover the costs that Hudson pays a share of through a special contract.

2. Hudson, unlike a G-M customer, has the following unique characteristics which distinguish it from PWW's other customer classes:

- a. The Town has its own water storage. It does not require water to meet its peak instantaneous needs like a normal G-M customer as those are met from its water storage tanks.
- b. The Town, unlike the G-M metered and unmetered customer class, municipal fire protection class, and private fire protection class, is contractually obligated to purchase a minimum amount of water from PWW, regardless whether it uses that water or not, compared to PWW's other customer classes who are not obligated to purchase a minimum amount.
- c. The Town, unlike a G-M customer, takes water at a fixed rate versus a variable rate. PWW can work with the Town, as necessary to control when that water is taken to help reduce peak day usage rates. Reducing peak day usage helps keep costs down for PWW and its customers.
- d. If PWW were to create a separate customer class in its general rate schedules for service taken by Hudson, it would be a class of one (1) customer. That being the case, that customer's usage needs ought to be addressed as the Commission has in the past, via RSA 378:18 and a special contract so that the costs to analyze the appropriate rate are not socialized to other customers. Also, importantly, if a customer class were created to address Hudson's needs, PWW would lose the

ability to lock this large user into a long-term commitment because PWW's general tariffs are all subject to general rate cases every three years. As stated earlier, using the general tariff model to meet Hudson's needs would not yield the benefits to PWW's other customers that the long-term special contract model provides.

Date Request Received: 7/7/22
Request No. DOE 2-2

Date of Response: 7/18/22
Witness: Donald L. Ware

REQUEST: Has PWW and Hudson discussed PWW expanding its franchise and providing water service directly to the Town? If so, please elaborate and describe issues that were raised.

RESPONSE:

This was discussed in 1998 when Hudson acquired its water system from Consumer's New Hampshire Water Company. The Town made clear in Docket No. DE 96-227 (Order No. 22,792 dated November 21, 1997) and Docket No. DE 96-227 (Order No. 22,880 dated March 23, 1998) that it had no interest in having PWW own and operate its water system at that time and has never expressed an interest since then in PWW owning and operating the Town's water system.

Responses to DOE Data Requests – Set 2

Date Request Received: 7/7/22
Request No. DOE 2-4

Date of Response: 7/18/22
Witness: Donald L. Ware

REQUEST: Please provide a table that shows forecasted monthly water sales from PWW to Hudson (in dollars and gallons) during calendar year 2023 based on the assumption that the proposed contract is approved. Please foot each column.

RESPONSE:

Please see Attachment DOE 2-4 for the requested table. Please note that the bill does not include the requested reduction associated with the proposed contract rates be retroactive back to July 1, 2021. The projected credit (based on a true up period between 7/1/2021 and 6/30/2022) is about \$213,987 or about \$17,832 per month.

Special Contract with Town of Hudson
Responses to DOE Data Requests – Set 2

Date Request Received: 7/7/22
Request No. DOE 2-5

Date of Response: 7/18/22
Witness: Donald L. Ware

REQUEST: Refer to Testimony of Mr. Donald L. Ware (Ware Testimony), pgs. 5-6, regarding Dame and Ducharme wells taken offline in June of 2021.

- a) Prior to the shutdown, how much production had the N.H. Department of Environmental Services (DES) permitted for each of those wells, in both gallons per minute (GPM) and annually in CCFs?
- b) If available to PWW, please provide copies of documentation that shows the amount of production authorized by DES for each of the two wells.

RESPONSE:

- a) These wells were permitted for a daily production of up to 790,000 Gallons Per Day (GPD) or about 549 GPM.
- b) The wells are owned by the Town of Hudson not PWW, so PWW does not have any direct communications from the NHDES as to the 790,000 gpd withdrawal limitation. The NHDES imposed the 790,000 GPD production limitation on the Dame and Ducharme wells around 2004. PWW is aware of this limitation as it operated the Dame and Ducharme wells for Hudson during a limited time frame and PWW instituted controls on those wells at that time to ensure that Hudson complied with NHDES's directive and that the wells were not pumped at a rate of more than 790,000 GPD.

Request No. DOE 2-6

Date of Response: 7/18/22
Witness: Donald L. Ware

REQUEST: Refer to statement at Ware Testimony, p 8, ln 1-2: “As a result, Hudson’s only available supply for the next three to four years is its existing seasonal interconnection with PWW.”

- a) If Hudson were unable able to obtain from PWW the additional supply needed to make up for the shortfall created by the Dame and Ducharme well shutoffs, would the Town be faced with an emergency?
- b) If the response to (a) is no, please explain why the situation faced by Hudson should not be considered an emergency, like that of Merrimack Village District in 2021?

RESPONSE:

- a) Yes.

Pennichuck Water Works, Inc.
DW 22-029

Special Contract with Town of Hudson
Responses to DOE Data Requests – Set 2

Date Request Received: 7/7/22
Request No. DOE 2-7

Date of Response: 7/18/22
Witness: Donald L. Ware

REQUEST: Regarding the alternative to the proposed contract discussed during the July 6th technical session, where the existing, 2006 contract would remain in effect and continue to apply to monthly fixed, meter, and volumetric charges, as before, and a new “emergency” contract would apply only to volume for supply equal to the shortfall caused by the closure of the Dame and Ducharme wells, with volume charges being first applied to the emergency contract, and then to the existing contract:

- a) Does PWW believe that an emergency contract like this could be arranged with Hudson?
- b) What issues and concerns, if any, does PWW have with such an arrangement?
- c) At what rate would PWW charge for supply under such an emergency contract? Please provide justification and support.
- d) Based on the rate determined in response to (c), please provide a calculation that shows the amount of revenue this arrangement would generate. Please assume volume will be 1.0 MGD or 487,968 CCF annually.

RESPONSE:

- a) No.
- b) The primary concern would be how to establish an appropriate rate. Cost of Service Studies do not differentiate between emergency and day to day usage. They are based on usage patterns over a period of years and the assets and services required to provide the requested flows. Emergencies do not extend for years, typically only months, as was the case with Merrimack Village District. Emergencies are also typically unexpected.
- c) PWW would not support a “split” rate as suggested above for the reasons noted in my response to part b) above. PWW believes that a single, Cost of Service based rate, is what should be charged due to the length of time that Hudson will need water from PWW and in light of past practice before this Commission.
- d) Please see Attachment DOE 2-10a providing a calculation of the amount of revenue that would be generated by charging Hudson the COSS established rates. For the reasons noted in c) above, the COSS rates are the only rates that PWW would consider billing Hudson because those rates do not create a windfall. PWW does not see any justification or reasoning for the concept of a split rate and does not believe the implementation of such a rate concept will produce just and reasonable rates.

Pennichuck Water Works, Inc.
DW 22-029

Special Contract with Town of Hudson
Responses to DOE Data Requests – Set 2

Date Request Received: 7/7/22
Request No. DOE 2-8

Date of Response: 7/18/22
Witness: Donald L. Ware

REQUEST: Regarding a scenario similar to that in the prior request, where PWW would continue to apply its existing contract with Hudson for monthly fixed, meter, and volume charges, but apply first, under tariff rates, volume charges for supply equal to the shortfall caused by the Dame and Ducharme wells:

a) Please provide a calculation that shows how much revenue such an arrangement would generate. Assume that volume charges would first be applied first under the tariff rates for the shortfall, and remaining volume charges would be based on the existing special contract. Assume volume of 1.0 MGD or 487,968 CCF annually.

RESPONSE:

a) This calculation is not presently allowed. Hudson's current Commission-approved contract with PWW would not allow PWW to bill Hudson at other than the special current rate on terms based on Hudson having the right to take up to 2.0 MGD at the interconnection point without that contract being terminated. See, *Pennichuck Water Works, Inc.*, Order No. 24,611 in Docket No. DW 05-143 (March 31, 2006). This hypothetical would require modification of that order.

Notwithstanding that, Hudson's usage from PWW, even without the production from the Dame/Ducharme wells, does not exceed that which is allowed under the current Special Contract.

Pennichuck Water Works, Inc.
DW 22-029

Special Contract with Town of Hudson
Responses to DOE Data Requests – Set 2

Date Request Received: 7/7/22
Request No. DOE 2-9

Date of Response: 7/18/22
Witness: Donald L. Ware

REQUEST: During the July 6th technical session PWW stated that PWW's recently filed rate case is based on a 2021 test year. Please confirm that statement.

RESPONSE:

The PWW rate case filed in DW22-032 is based on 2021 test year expenses. The calculation of PWW's revenue requirement also includes a Five-Year Average of water sales.

Pennichuck Water Works, Inc.
DW 22-029

Special Contract with Town of Hudson
Responses to DOE Data Requests – Set 2

Date Request Received: 7/7/22
Request No. DOE 2-10

Date of Response: 7/18/22
Witness: Donald L. Ware

REQUEST: In regards to retroactive application of any new contract to July 1, 2021, if the recently filed rate case is, indeed, based on a 2021 test year:

- a) Please provide the amount of revenue reduction created by the difference in rates in the existing, 2006 contract and the proposed contract. Assume volume of 1.0 MGD or 487,968 CCF annually.
- b) If the proposed contract were retroactively applied, would the difference in revenue computed in response to (a) increase PWW's revenue requirement for the 2021 test year?
- c) If the response to (b) is yes, by how much would the revenue requirement during the test year be increased, roughly?
- d) If the response to (b) is no, please explain why not.

RESPONSE:

- a) Please see Attachment DOE 2-10a for the calculated difference in rates based on 487,968 CCF of sales.
- b) No. The proforma would result in a lower volumetric rate applied against a larger volume in addition to the replacement of the existing fixed annual charge of \$32,800 with the proposed \$457,083. The net result of these proforma's is a reduction in the revenue required from the G-M metered and unmetered customer class.
- c) The requested explanation is as given in para. b) above. A calculation of the pro forma for the 2021 test year is attached DOE 2-10d). The pro forma results in a reduction in revenue requirement from the G-M customer class of about \$285,000 based on 2021 Test Year actual sales.
- d) Not applicable.

Special Contract with Town of Hudson
Responses to DOE Data Requests – Set 3

Date Request Received: 8/2/22
Request No. DOE 3-2

Date of Response: 8/15/22
Witness: Donald L. Ware

REQUEST: Assuming retroactive application of the proposed contract is approved, please provide a draft reconciliation of charges to Hudson under (1) the current contract and (2) the proposed contract based on usage during the period that begins July 1, 2021 and ends on the date of the most recent bill to Hudson.

(This is similar to the request in DOE 1-3 in DW 21-115, PWW Sp K w A-B.)

RESPONSE:

Please see Attachment DOE 3-2 for a draft reconciliation of the PWW-Hudson bills between July 1, 2021 through the most recent bill. As with the A-B reconciliation it was determined that the calculated PWW QCPAC recoupment for DW20-020 QCPAC incorrectly applied the 3.90% QCPAC to the Hudson's Base Monthly Fixed Charge resulting in the calculated and billed DQ20-020 QCPAC recoupment to Hudson being incorrect. Accordingly, the attached reconciliation has been corrected to reflect the proper QCPAC recoupment for DW20-020. The error in billing recoupment will be reconciled via a credit to Hudson's August 2022 bill.

Additionally, the Hudson bills that were issued during the proposed contract reconciliation period were improperly billed in regard to rate case expense and recoupment associated with DW19-084. Hudson was billed for rate case expense but not rate case recoupment. The billing should have been the opposite, Hudson should have been billed for rate case recoupment and not rate case expense. Apparently, when the billing of these two items was set up for this account the wrong toggles were used in regard to rate case expense and rate case recoupment. These errors in billing have been incorporated into the determination of the amount that would be owed the Town of Hudson when reconciling between current special contract rates and proposed contract rates.

Special Contract with Town of Hudson
Responses to DOE Data Requests – Set 3

Date Request Received: 8/2/22
Request No. DOE 3-4

Date of Response: 8/15/22
Witness: Donald L. Ware

REQUEST: Refer to the Hudson COSS, “Sch 1 Rate Base” tab.

The denominators for the wholesale allocation percentages, at the following cells, reference totals in the “Hudson shares in” column, while those in the COSS for PEU and A-B reference totals in the “Total Cost” column: U19, V19, W19, U24, V24, W24, U32, V32, W32, U61, V61, and W61. Do the denominators referenced in the Hudson COSS affect the calculation of any charges in the Hudson special contract? If so, please submit a revised COSS and contract for Hudson with corrected charges.

(This is similar to the inquiry in DOE 1-10 in DW 22-040, PWW Sp K w PEU.)

RESPONSE:

The Hudson COSS incorrectly calculated the percentages of Base, Max Day, and Max Hour based on the subtotals of the “Shares In” column, rather than the “Total Cost” column. The appropriate calculation of these percentages is based on the “Total Cost” column to reflect the Hudson’s share in the capacity of the system as a whole. Correcting the denominators resulted in a very small change to the Annual Demand Charge as well as the Volumetric Charge. A revised COSS is attached as Attachment DOE 3-4a.

A revised copy of the PWW-Hudson Special contract is attached to this response as Attachment DOE 3-4b as requested. The Demand Charge and Volumetric Charge shown in Section 7(a) and 7(b) on page 4 of the contract have been updated.

Date Request Received: 8/2/22
Request No. DOE 3-5

Date of Response: 8/15/22
Witness: Donald L. Ware

REQUEST: Refer to the proposed contract, section 8(a), regarding the Town wheeling water from the Company.

Please provide a table that shows, annually, for 2019-2021, the quantity of, and amount paid to Hudson for water wheeled to Litchfield, Londonderry, Pelham, and Windham.

RESPONSE:

Please see Attachment DOE 3-5 for the requested data. Please note that the PWW-Hudson annual contract period runs from the first Tuesday in August to the first Tuesday in August of the next year. The requested Table reflects the annual usage in accordance with the annual contract period as opposed to a calendar year.

Pennichuck Water Works, Inc.

Special Contract with Town of Hudson
Responses to DOE Data Requests – Set 3

Date Request Received: 8/2/22
Request No. DOE 3-6

Date of Response: 8/15/22
Witness: Donald L. Ware

REQUEST: Refer to the proposed contract, section 8(b), regarding the Company reimbursing the Town annually for capital improvements to the Route 102 booster station, also known as Hickory Station.

- a) Please confirm that this provision was newly introduced in the proposed contract and there is no reimbursement arrangement included in the current contract or other agreement.
- b) If the proposed contract is approved, does PWW intend to notify the Commission, through E-22 filings and otherwise, of proposed reimbursements to the Town for Hickory Station capital expenditures? If not, please explain.

- c) Does approval of the proposed contract trigger an obligation for PWW to reimburse Hudson for Hickory Station capital expenditures made during the 12-month period leading up to the contract approval date? Section 8(b) suggests that it does:

The Company shall reimburse the Town for any Capital improvements completed over the past 12 months from the date of this contract approval in accordance with the formula defined in this paragraph.

If the response is yes, please provide a spreadsheet that shows, hypothetically, if the proposed contract had become effective July 1, 2022, (1) the Town's total Hickory Station capital improvements, (2) PWW's reimbursement percentage, and (3) PWW's reimbursement amount. Please include in that spreadsheet a separate section or footnote that shows and demonstrates the calculation of PWW's reimbursement percentage as defined in section 8(b):

The reimbursement percentage shall be based on water usage used by PEU in Londonderry via the West Road Meter Pit divided by the total flow through the Hickory Road Booster Station.

- d) If the proposed contract is approved with a retroactive effective date of July 1, 2021:
 - i. Does PWW become obligated to reimburse Hudson for Hickory Station capital expenditures made during the year beginning 7/1/2020 and ending 6/30/2021.
 - ii. Does PWW become obligated to reimburse Hudson for Hickory Station capital expenditures made during the year beginning 7/1/2021 and ending 6/30/2022?

RESPONSE:

- a) Para. 8(b) is a new paragraph in the proposed contract. There is no other provision for reimbursement of any of the Hickory Station capital expenses in the existing contract or in any other agreement. Para. 8(b) is the only paragraph addressing reimbursement for the Hickory Station.
- b) Yes, if the new contract is approved and Pennichuck is required to make a contribution toward any capital improvements in the Hickory Station per Para. 8(b) and the level of that contribution equals or exceeds the NHPUC E-22 reporting thresholds in Puc 609.12, then Pennichuck would report that contribution. Additionally, any contribution made toward a capital improvement in the Hickory Station would be reported as part of Pennichuck East Utilities annual QCPAC filing.
- c) There have been no capital improvements in the Hickory Station over the past twelve months so no contribution would be due. There are no projected capital expenditures to be made to the Hickory Station over the next year that Pennichuck is aware of at present.
- d) No. The obligation begins 12 months prior to the approval of the contract. If the contract was approved by the NHPUC on October 1, 2022 than Pennichuck would be liable for its share of any capital improvement made to the Hickory Booster that was made on October 1, 2021 or after. As stated in para. c) above Pennichuck is not aware of any capital improvements made or planned by Hudson to the Hickory Booster over the time frame noted above. For this reason, the retroactive, July 1, 2021 effective date is not expected to result in any capital payments for the Hickory Road Booster Station.

Pennichuck Water Works, Inc.
DW 22-029

Special Contract with Town of Hudson
Responses to DOE Data Requests – Set 3

Date Request Received: 8/2/22
Request No. DOE 3-7

Date of Response: 8/15/22
Witness: Donald L. Ware

REQUEST: Regarding the grant provided by the N.H. Department of Environmental Services (NHDES) to Hudson to fund the COSS: *The rates for the new contract are the product of a Cost of Service Study funded by the New Hampshire Department of Environmental Services (NHDES) for Hudson.* Initial Petition filed April 27, 2022, p 3. Except for additional columns in the Excel model used to assign specific costs to Hudson, it appears to DOE that the COSS used for the proposed Hudson contract is nearly identical to the COSS prepared by Concentric Energy Advisors (Concentric) for PWW's rate case in DW 19-084. Of import, \$58,803.98 of Concentric charges for that COSS has been recovered by PWW through rate case expenses. See p.1 of PWW's rate case expenses at the following link:

https://www.puc.nh.gov/Regulatory/Docketbk/2019/19-084/MOTIONS-OBJECTIONS/19-084_2021-01-20_PWW_RATE_CASE_EXPENSES.PDF.

- a) What was the amount of the grant provided to Hudson by NHDES?
- b) Has Hudson reimbursed PWW for preparing the COSS? If so, what is the amount?
- c) Has Concentric or any other consultant modified the original COSS, used for the rate case, to determine the charges for the Hudson special contract? Or was all work to adapt that original COSS for the proposed Hudson contract (for instance, assigning specific costs to Hudson) done exclusively by personnel at PWW?
- d) Please indicate whether PWW is recovering its costs for the original COSS, used for the rate case, through both rate case expenses and from Hudson.

RESPONSE:

- a) Pennichuck is unaware of the amount of the grant provided to Hudson by the NHDES to complete the COSS.
- b) The COSS was performed for Hudson by Raftelis Consultants, not Concentric. The COSS was not performed for Pennichuck, there was no cost to Pennichuck for the completion of the COSS for Hudson, Pennichuck was not involved in Hudson's payment of its COSS. See also response d) below.
- c) No.
The proposed Hudson Special Contract fees came directly from the Raftelis COSS. PWW made no adaptations to the COSS.
By way of further explanation, Raftelis Consultants was hired by the Town of Hudson, not Pennichuck, to perform the COSS. Raftelis used the same base financials as Concentric did in PWW's DW19-084 rate case for the COSS it completed for Hudson and similarly used an AWWA approved methodology. That is the extent of similarities.

It is important to remember that the importance of a COSS is the analysis it produces. It is that analysis that Hudson, not Pennichuck, paid for in the Raftelis COSS.

- d) This question implies Pennichuck is benefiting from double recovery. Pennichuck is not “recovering its costs for the original COSS” “through both rate case expenses and from Hudson. The referenced COSS’s are completely separate, conducted for different purposes, and paid for by different entities. One COSS was completed for PWW by Concentric for Docket No. DW19-084, and as such, Concentric’s charges to PWW for that COSS are being recovered by PWW via the rate case expense surcharge approved in DW19-084. In contrast, the COSS completed for Hudson was completed by Raftelis Consultants and is separate and distinct from the COSS completed by Concentric. All the costs associated with the Raftelis COSS for Hudson were paid from with funds from the NHDES grant. PWW is not recovering from ratepayers any costs for the Hudson/Raftelis COSS because it did not incur any expenses associated with that COSS.

Notes:

- Meter was exchanged on March 8, 2022
- QCPAC surcharge on bill for DW20-020 of 3.90% is applied to the Usage and Monthly Meter Charges
- QCPAC surcharge on bill for DW21-023 of 1.56% is applied to the Usage and Monthly Meter Charges
- Billed QCPAC Recoupment based on recoupment of \$ 4,340.68 per month for 12 months for DW20-020 recoupment and Billed QCPAC Recoupment based on recoupment of \$ 3,863.31 per month for 3 months for DW21-023 recoupment
- Corrected QCPAC Recoupment - See Worksheet tab for correct DW20-020 recoupment calculation
- See DW20-020 and DW21-023 tabs for calculation of recoupment under amended contract rates.
- Reconciliation is between Current and Amended Contract rates after correcting for QCPAC recoupment billing error. the DW20-020 QCPAC recoupment billing error is being reconciled, starting with the August 2022 bill, billing the remaining recoupment after correction over 6 months
- Rate Case expense should have not been collected on the Hudson Bill. Rate Case Recoupment for DW19-084 should have been billed. When the billing was set up for Rate case expense and recoupment the billing system toggles were reversed. Rate case recoupment is not impacted by the proposed amended contract rates as recoupment was based on rates prior to December 2020 Monthly rate case recoupment of \$1,562.94 was to be collected over 18 months with the last month for this recoupment amount being the September 2022 bills.

1. Original DW20-020 Recoupment incorrectly applied the approved QCPAC surcharge of 3.90% to all Hudson charges, including the Contract Fee charge.
2. Corrected DW202-020 Recoupment applies the approved QCPAC surcharge of 3.90% to the Hudson usage and customer charged but not to the Contract Fee charge
3. DW20-020 recoupment is the same for both contracts between April 23, 2020 and July 1, 2021. The calculated recoupment is different for the period from July 1, 2021 through December 1, 2021 due to difference between Current and Amended Contract rates

Responses to DOE Data Requests – Set 4

Date Request Received: 9/12/22
Request No. Energy 4-1

Date of Response: 9/22/22
Witness: Donald L. Ware

REQUEST: Please provide a spreadsheet that shows, in chronological order by row, rates charged to Hudson, beginning with the charges contained in the current contract, dated July 12, 2005 and approved by Order 24,611(issued March 31, 2006 in DW 05-143), and ending on the date of the most recent bill to Hudson. Include the following fields for each row: order number authorizing new rates and order issue date, docket number and description, and the rates (meter charge, base monthly rate, and volumetric rate). (This is similar to the request in DOE 1-2 in DW 21-115, PWW Sp K w A-B.)

RESPONSE:

Please see Attachment DOE 4-1 for the requested spreadsheet.

Special Contract with Town of Hudson
Responses to DOE Data Requests – Set 4

Date Request Received: 9/12/22
Request No. Energy 4-2

Date of Response: 9/22/22
Witness: Donald L. Ware

REQUEST: In the revised contract provided in response to DOE 3-4, at Section 7(b), DOE noted a minor discrepancy between the stated minimum guaranteed consumption on an annual basis, 487,968 CCF, which equates to 40,664 CCF per month, and monthly, 40,107 CCF.

- a) What is the correct annual and monthly minimum consumption amount?
- b) If there is an error, does PWW intend to submit a corrected contract?

RESPONSE:

- a) The correct annual amount is 487,968 CCF or 1,000,000 gallons/day x 365 days/Yr x 1 CCF/748 gallons.
- b) The correct monthly minimum consumption should be the number of days in the monthly billing cycle x 1,000,000 gallons/day x 1 CCF/748 gallons or 1336.9 CCF per day. The 40,107 CCF per month was based on a 30-day billing cycle. Billing cycles vary from 28 to 35 days per month. PWW has revised the proposed contract, as the DOE noted was last revised in response to DOE 3-4, to reflect a monthly minimum sales of the number of days in the billing cycle times 1,336.9 CCF per day. See Attachment DOE 4-2.

Special Contract with Town of Hudson
Responses to DOE Data Requests – Set 4

Date Request Received: 9/12/22
Request No. Energy 4-3

Date of Response: 9/22/22
Witness: Donald L. Ware

REQUEST: Please provide a calculation of the estimated additional revenue that would be earned by PWW under the proposed contract, with minimum required consumption of 1.0 MGD, compared with pre-2021 average consumption under the existing 2005 contract.

RESPONSE:

The additional projected annual revenues from Hudson, after removing variable operating expenses to produce the water, that will be earned by PWW under the proposed contract is \$206,558.86 per year versus the existing contract and revenues that would have been earned under the pre-2021 average consumption by Hudson. Please see Attachment DOE 4-3 for the calculation of this increase in earned revenues.

Pennichuck Water Works, Inc.
DW 22-029

Special Contract with Town of Hudson
Responses to DOE Data Requests – Set 4

Date Request Received: 9/12/22
Request No. Energy 4-4

Date of Response: 9/22/22
Witness: Donald L. Ware

REQUEST: Regarding the requested retroactive effective date for the proposed contract of July 1, 2021:

- a) Please explain how a credit to Hudson, due to a retroactive effective date, would be refunded.
- b) Please identify the section and language in both the current and proposed contracts that would allow PWW to make a refund to Hudson due to a retroactive effective date.
- c) Please provide an explanation along with sufficient support for why there would be no economic harm to PWW's tariff customers if the contemplated credit is issued to Hudson due to a retroactive effective date for the proposed contract.

RESPONSE:

- a) The total credit due to Hudson would be divided by the number of months that the credit was earned over (number of monthly billings between the approval of the proposed contract and the proposed effective date of the new contract of July 1, 2021). This credit amount would be applied to each monthly bill under Section 7(b) of the proposed contract and would necessitate a reissuance of the bills with the correct rate for usage July 1, 2021 forward.
- b) Please see Section 7(b) of the proposed contract (Attachment DOE 4-2). The current contract extends until July 12, 2025 and does not include a credit provision. For this reason, it is the proposed contract and petition that requests Commission approval for the credit to effectuate the approved rate back to July 1, 2021.
- c) Based on the rate making concept of rates being just and reasonable to all customer classes the charging of Cost of Service Based pricing to Hudson, based on a change in usage pattern and willingness to guarantee a minimum daily purchase amount of 1.0 million gallons per day, the appropriate rate to charge Hudson beginning on July 1, 2021 are the rates detailed in the Cost of Service Study. Due to a contamination of the Dame/Ducharme wells, based on a new State standard for PFAS in combination, with the regulatory process that needs to be followed to establish a new contract, the Town of Hudson is currently being "overcharged", based upon this significant and sustained change in usage pattern, for the water they have used since July 1, 2021 since July 1, 2021, which is not just and reasonable.

The proposed rates in DW22-032 include a proforma adjustment reflecting the increased revenues generated by the proposed Hudson Special contract and reduce the revenue requirement for the GM customer. The credit that is proposed by Pennichuck is reflected in the calculation of the 12/31/2022 revenues and is reflected in the proforma adjustment to revenues for the Town of

Hudson which in turn impacts the level of the projected 12/31/2022 Combined RSF accounts. If no credit is granted back to 12/31/2021 there would be additional revenues booked from the Town of Hudson, based on existing contract rates applied against a greater usage, which would result in a higher projected 12/31/2022 RSF combined balance and an increase in the associated credit back to the GM customers. This greater credit to the GM overall revenue requirement would be at the expense of Hudson as a special customer and would slightly reduce the required rates to Pennichuck's other customers. For one group of customers to gain at the expense of other customers is not just and reasonable. Not applying the proposed Special contract rates causes economic harm to the Town of Hudson while unjustly benefiting Pennichuck's other customers.

Special Contract with Town of Hudson
Responses to DOE Data Requests – Set 4

Date Request Received: 9/12/22
Request No. Energy 4-2

Date of Response: 9/22/22; 9/29/22
Witness: Donald L. Ware

REQUEST: In the revised contract provided in response to DOE 3-4, at Section 7(b), DOE noted a minor discrepancy between the stated minimum guaranteed consumption on an annual basis, 487,968 CCF, which equates to 40,664 CCF per month, and monthly, 40,107 CCF.

- a) What is the correct annual and monthly minimum consumption amount?
- b) If there is an error, does PWW intend to submit a corrected contract?

RESPONSE:

- a) The correct annual amount is 487,968 CCF or 1,000,000 gallons/day x 365 days/Yr x 1 CCF/748 gallons.
- b) The correct monthly minimum consumption should be the number of days in the monthly billing cycle x 1,000,000 gallons/day x 1 CCF/748 gallons or 1336.9 CCF per day. The 40,107 CCF per month was based on a 30-day billing cycle. Billing cycles vary from 28 to 35 days per month. PWW has revised the proposed contract, as the DOE noted was last revised in response to DOE 3-4, to reflect a monthly minimum sales of the number of days in the billing cycle times 1,336.9 CCF per day. See Attachment DOE 4-2.

SUPPLEMENTAL RESPONSE:

Attached please find a revised Attachment Supp. DOE 4-2 which includes revisions to material investments required to comply with US EPA and NHDES regulations. Please see the gray-shaded area for this supplemental language.

2022 Wholesale Water Supply Contract

This 2022 Wholesale Water Supply Contract (“Agreement”) is made as of the ___ day of _____, 2022 by and between Pennichuck Water Works, Inc., a New Hampshire corporation with an address of 25 Walnut Street, Nashua, New Hampshire 03060 (“Company”) and the Town of Hudson, acting by and through its Board of Selectmen, with a principal place of business at 12 School Street, Hudson, New Hampshire, 03051 (“Town”).

WHEREAS, the Company and the Town are parties to a Wholesale Water Supply Contract dated July 12, 2005 (“2005 Contract”),

WHEREAS, the Company and the Town wish to terminate the 2005 Contract and enter into a new agreement under which the Company would continue to make water available to the Town for purchase at a wholesale rate.

NOW, THEREFORE, in consideration of the foregoing and the terms and conditions set forth below, the parties agree to the following deviations from the Company’s otherwise applicable terms and conditions of service:

1. Term. This Agreement shall be binding upon the parties upon execution by both the Town and the Company, but the terms hereof shall not take effect until any necessary approval of the New Hampshire Public Utilities Commission (“NHPUC”) has been obtained. This Agreement shall remain in effect for an initial period of two (2) years from July 1, 2021 (“Initial Term”), subject to extension of the term pursuant to Section 2 or termination pursuant to Section 2 or Section 10.
2. Renewal Terms. The term of this Agreement shall be automatically extended for three additional terms of two (2) years each (each a “Renewal Term”) unless either party gives written notice to the other, at least twelve (12) months prior to the date on which the Initial Term or any Renewal Term expires, of its intention to terminate the Agreement at the expiration of the Initial Term or the then-current Renewal Term, as the case may be.
3. Delivery Point and Metering.
 - (a) The water to be sold by the Company to the Town under this Agreement shall be delivered by the Company to the Town at the point of interconnection between the Town's water system and the Company's water system on the Nashua side of the Taylor Falls Bridge (“Interconnection Point”).
 - (b) The Company shall, at its own cost, install and maintain metering equipment (“Meter”) on the West side of the Merrimack River in the Taylor Falls pumping station located approximately 700 feet westerly from the end of the Interconnection Point, which shall be used to measure the quantity of water taken by the Town on a monthly basis.
 - (c) In addition, the Company, which is the current owner and operator of the E Street Interconnect Station in Nashua, shall maintain it at its own cost. For any upgrades to the E Street Interconnect Station facility related to a capacity increase for the Town, the

Town shall pay a percentage of the total upgrade cost. The Town's percentage cost for the upgrade shall be calculated by dividing the Town's Total Required capacity, including the increase requested by the Town, by the sum of the Town's capacity plus the average of the last three years usage by PEU at the Sullivan Road Meter Pit. The percentage contribution by the Town shall be recalculated each time a station upgrade is required with the calculation being based on each party's usage from the year prior to the upgrade being completed.

(d) The Meter shall be inspected and calibrated by the Company in accordance with the applicable regulations of the NHPUC. A copy of any inspection and calibration reports shall be available at the Company's principal office for examination by the Town during normal business hours upon reasonable notice from the Town.

(e) The Town may have the accuracy of the Meter tested by an independent third party at the Town's expense at any time, but not more frequently than once each month, provided that the Town gives the Company at least seven (7) days advance written notice of its desire to test the Meter. The Company shall have the right to be present during any such test. If the Meter reads within the specifications established by the NHPUC, the cost of such test shall be borne by the Town. If the Meter does not meet the specifications established by the NHPUC, the cost of the tests shall be paid by the Company, and the Company shall adjust its next bill to the Town accordingly.

(f) In the case of missing or inaccurate flow records due to a faulty Meter or other circumstances, the Company shall calculate the payments due from the Town using a reasonable estimate of the flow based on past records and other relevant data for a comparable period.

4. Expansion of Service.

(a) The Town shall have the right, at its sole expense, to construct and connect transmission mains, main pipe extensions, hydrant branches and service connections located within Hudson to the Interconnection Point, in accordance with all applicable industry engineering standards and practices, to supplement its current service and provide additional service within the Town, but not to provide water service outside of the Town.

(b) For any future expansion of Company services, operations or infrastructure that may affect the Town's distribution system and or storage tanks, the Company shall provide the Town a summary of the planned expansion in writing for Town review and comment. If a Company water main expansion results in a necessary but unplanned upgrade to the Town's distribution system, then the Company shall be responsible for those upgrades.

5. Quantity of Water.

(a) Maximum Daily Demand. Subject to the provisions of Section 5(b) and Section 6, the Town shall have the right to take up to, but not in excess of, two million, one hundred thousand (2,100,000) gallons of water per day (“GPD”) at the Interconnection Point; provided, however, that water taken for non-training firefighting purposes shall not be counted toward such maximum quantity.

(b) Maximum Peak Demand. At all times, the Town’s peak draw at the Interconnection Point shall be limited to 1,460 gallons per minute; provided, however, that water taken for non-training firefighting purposes shall not be counted toward such allowable draw. If PWW, in its sole discretion, determines that, due to circumstances beyond PWW’s reasonable control, its water supply is impaired, PWW may, upon twenty-four (24) hours’ notice to the Town reduce the maximum volume that may be taken by the Town. PWW will promptly notify the Town when such circumstances cease to exist, and, thereupon, the rights of the Town to take water as set forth in this Section 3(a) shall be restored. In exercising its discretion concerning a reduction in the amount of water thereafter to be taken by the Town, PWW shall afford at least as favorable treatment to the Town as to its other wholesale water supply customers, except insofar as its special contracts, existing on the Effective Date, with such customers or the rules of the NHPUC require a different standard to be applied with respect to such customers. PWW will promptly employ its commercially reasonable efforts to cure such inadequacy or impairment. The Town shall not be entitled to compel PWW to supply it with any specific quantity of water nor shall it be entitled to any damages as a result of PWW’s determination that its supply is inadequate or impaired.

6. Increase in Quantity of Water. If the Town wishes to increase the maximum quantity of water that it is permitted to purchase under Section 5, it shall provide the Company with written notice sufficient for the Company to evaluate the capacity of its facilities to produce water to meet such increased demand in light of existing and reasonably anticipated additions to demand on the Company’s own system. Such notice shall be given at least one year in advance of the desired implementation date of the increase. The Company shall respond to such a request within ninety (90) days, indicating whether it agrees to provide the additional supply. If the Company agrees to increase the maximum quantity of water that may be taken by the Town, the Company and the Town shall negotiate in good faith to determine the price of any such increase based on the cost of the incremental capacity. If despite such good faith negotiations, the parties are unable to agree on the cost of the incremental capacity, the Company shall not be required to increase the maximum quantity provided for in Section 5. Any increase in the maximum quantity of water to be purchased under this Agreement shall be reflected in an amendment to this Agreement, signed by the parties. Such amendment shall become effective upon execution and will require additional approval of the NHPUC and is subject to a Cost of Service Study based on the revised capacities.

7. Fees. The Town shall pay the Company the following amounts for the water supplied or to be supplied by the Company under this Agreement:

(a) Demand Charge. The Town shall pay the Company an annual demand charge of \$457,441 (the “Annual Demand Charge”) payable to the Company in equal monthly installments. The Demand Charge is subject to the determination the NHPUC as part of the proceeding to approve this Agreement. The Demand Charge shall be due and payable without regard to the amount of water actually taken by the Town or any volumetric charges for such purchases. If there is a period of time, one week or longer in continuous duration, where the Company cannot deliver the 1.0 MGD requested by the Town the Demand Charge in that year will be reduced by the number of days where 1.0 MGD is not available to the Town divided by 365 multiplied by the annual Demand Charge. The Company may only adjust the Demand Charge in the event a new cost of service allocation study is obtained by PWW (a “Cost of Service Study”) and approved by the NHPUC and where the adjustment to the Demand Charge is in direct response to the need to comply with regulations of or change by the United States Environmental Protection Agency and/or the New Hampshire Department of Environmental Services (“NHDES”) and where such compliance which involves the need to make requires a material investment in, or upgrades to, the material water supply facilities that serve the Town. Such material investments or upgrades include those made to, for example, PWW’s Nashua water treatment plant, the Pennichuck Brook Dams, the Merrimack River Raw Water Pumping Station, and the Fifield Tanks. The Demand Charge shall only be adjusted to the extent that the material upgrade is necessary to comply with the regulations required by the regulatory change and, is required to serve the Town, and where the Demand Charge has been approved by the NHPUC.

(b) Volumetric Charge. The Volumetric Charge will be \$1.0093 per 100 cubic feet, for a minimum guaranteed of 487,968 CCF per year over a two-year period with the start date being the Initial Term date of July 1, 2021. The Volumetric Charge is subject to the determination of the Volumetric Rate by the NHPUC as part of the proceeding to approve this Agreement and such approval, if occurring after July 1, 2021, may require issuance of corrected bills to reflect the approved rate for usage as of July 1, 2021. In such an event, the difference in revenues between what was actually billed for service July 1, 2021 forward and what would have been billed under the new approved rates will be used to create a bill credit. This bill credit will be returned over the number of months that the credit was earned, similar to the minimum guaranteed usage credit described below.

The evaluation of minimum guaranteed usage shall be calculated in August of each year and shall look back over the Town’s usage for the two preceding years from July 1 to June 30 and divided by 12 months. The Town will be billed each month for the number of days in that monthly billing cycle times 1,336.9 ~~40,107~~ CCF per day times at the approved volumetric charge. If the Town’s actual usage for the month is less than 40,107 CCF (based on a 30-day month) the difference between the monthly billed volumetric consumption and the Towns actual consumption shall be carried as a credit into the following month’s bill. The credit will reduce the next month’s billable consumption if the Town’s actual consumption exceeds the minimum monthly consumption of 40,107 CCF. The Town will carry any credits due to offset monthly consumption for up to two years. If at the end of any two-year period the Town has a consumption credit at the end of that two year period

that credit will be reset to zero for the start of the next two-year period. The Volumetric Charge may only be adjusted by the same percentage and at the same time as any future change in the volumetric rates for general metered service, as adjudicated by the NHPUC, which the Company charges to its core system customers in the City of Nashua. The Volumetric Charge includes modifications made from time to time by adjustments to the Qualified Capital Adjustment Charge, as approved by the NHPUC. Source: Pennichuck Water Works, Inc., Docket No. DW 19-091, Order No. 26,429 (December 2, 2020).

(c) Meter Charge. The Monthly Fixed Meter Charge shall be set at \$78.33 per month and reflects the cost to read and bill the Town on a monthly basis in addition to the cost to test the Town wholesale meters on an annual basis. The Monthly Fixed Meter Charge subject to the determination of the Monthly Fixed Meter Charge by the NHPUC as part of the proceeding to approve this Agreement. Thereafter, the monthly fixed meter charge may only be adjusted by the same percentage and at the same time as any future change in the volumetric rates for general metered service, as adjudicated by the NHPUC, which the Company charges to its core system customers in the City of Nashua.

(d) Invoices. The Company shall bill the Town on a monthly basis for water taken by the Town under this Agreement. Payment shall be due on presentation of each invoice and amounts unpaid after thirty (30) days shall be subject to one and one-half (1-1/2%) percent interest per month on the unpaid balance from the date of such invoice.

8. Use of Mains and Boosters.

(a) The Town shall wheel water from the Company through the Town's transmission and distribution mains to limited service areas of Pennichuck East Utility, Inc. ("PEU"), an affiliate of the Company, in Litchfield, Pelham, Londonderry and Windham (limited service areas are as defined in Appendix "A" of this agreement) that are interconnected with the Town's water system, provided that the Company's right to transmit its water through the Town's distribution system shall be contingent upon such use not significantly reducing the pressure in the Town's distribution lines (more than 10% reduction in pressure). For any water wheeled by the Town through the Town's water system for the Company, the Company shall pay the Town the Volumetric Rate plus twenty percent (20%) of the Volumetric Rate set forth in Section 7. In addition, this rate shall be adjusted by the same percentage and effective as of the same dates as any adjustment in the rates paid by core system customers in the City of Nashua.

(b) The Company shall reimburse the Town every year for a percentage of the any capital improvements completed in that year related to the Route 102 Booster station, also known as Hickory Station, located in Hudson. The reimbursement percentage shall be based on water usage used by PEU in Londonderry via the West Road Meter Pit divided by the total flow through the Hickory Road Booster Station. The Company shall reimburse the Town for any Capital improvements completed over the past 12 months from the date of this contract approval in accordance with the formula defined in this paragraph.

9. Assignment and Sale. The Town agrees that any water provided to it by the Company shall be used only to provide service to customers within the Town who are served by the Town's water system. No water shall be sold by the Town, either directly or indirectly, to any private or investor owned water utility, municipality, village district or individual doing business or residing outside of the Town for any purpose without the Company's prior written consent.
10. Termination. In the event of a material breach of this Agreement by either party, this Agreement may be terminated by giving the breaching party written notice of termination, which notice shall set forth with specificity the nature of the claimed breach by the other party. The breaching party shall have 30 days to cure the material breach, during which time the parties shall make a good faith effort to resolve the dispute informally. Any such termination shall not be effective until three (3) months from the date of such notice. In no event may this Agreement be terminated on less than three (3) months prior written notice, except as may be determined by order of the NHPUC.
11. Miscellaneous.
- (a) Dispute Resolution. Any controversy or claim arising out of or relating to this Agreement, or the breach thereof, that the parties are unable, after a good faith effort, to settle informally may be submitted to the NHPUC, or its successor, for resolution.
- (b) Severability. If any term or condition of this Agreement is found to be unenforceable, the remaining terms and conditions shall remain binding upon the parties as though said unenforceable provision were not contained herein.
- (c) Amendments, Assignment, Governing Law. This Agreement may be amended upon the mutual agreement of the parties, subject to any required approval of the NHPUC. This Agreement may be assigned by the Company to a wholly owned subsidiary or an affiliate under common control with the Company without the prior consent of the Town. This Agreement shall be binding upon and inure to the benefit of the respective successors and legal representatives of the parties. This Agreement shall be governed by and construed under the laws of the State of New Hampshire.
- (d) Notices. All notices, requests, demands and other communications given pursuant to this Agreement shall be in writing and shall be deemed to have been given if they are delivered by hand or by nationally recognized overnight courier or mailed by certified or registered mail with postage prepaid to the Town or the Company, as the case may be, at the address first noted above or to such other address as the receiving party may have given written notice to the other party.
- (e) Action Necessary to Complete Transaction. The Town and the Company agree to execute and deliver all such other documents or instruments and take any action that may be reasonably required to effectuate the transactions contemplated by this Agreement.

- (f) Headings. The headings in each section of this Agreement are for convenience of reference only, and do not form a part hereof and in no way modify or shall be used to interpret or construe the meaning of this Agreement.
- (g) Integration. This Agreement constitutes the entire agreement and understanding between the parties regarding the subject matter hereof, and supersedes all prior understandings, agreements, statements and representation, whether written or oral, between or made by the parties. Upon taking effect, this Agreement shall supersede and terminate the 2005 Contract in its entirety.

Special Contract with Town of Hudson
Responses to OCA Data Requests – Set 2

Date Request Received: 7/7/22
Request No. OCA 2-1

Date of Response: 7/18/22
Witness: Donald L. Ware

REQUEST: Please refer to the prefiled, direct testimony of Donald L. Ware at pg. 10, ln. 13 and pg. 13, ln. 3. Reconcile the monthly meter charge on page ten with the newly proposed monthly meter charge on page thirteen. As part of your response explain why the Company was able to offer such a significant discount to the prior rate.

RESPONSE:

There is no discount. Hudson is not charged a fixed meter charge under the existing Special Contract. The GM fixed meter charges are designed to recover 1.1 time the principal and interest necessary to fund certain fixed capital costs, including investment in capacity related capital (larger water mains, additional water storage, larger pumps) and also includes the cost to read, bill, and test the meter. The COSS ascribed the recovery of the 1.1 times the principal and interest used to fund certain fixed capital costs, including investment in capital to the annual fixed demand charge leaving only the cost of reading, billing and testing the meter to be recovered in the monthly fixed meter charge. The costs included in the proposed special contract fixed meter charge (meter reading, billing, and meter testing) change each year with increasing labor costs. The costs that are subject to annual increases are incorporated in the proposed fixed meter fee, which is adjusted with each rate change, as opposed to the fixed contract charge which does not change with each rate increase. Please see Sections 7 b and 7c of the proposed contract for how the Volumetric and Meter charges are calculated.

Special Contract with Town of Hudson
Responses to OCA Data Requests – Set 2

Date Request Received: 7/7/22
Request No. OCA 2-3

Date of Response: 7/18/22
Witness: Donald L. Ware

REQUEST: Please refer to the prefiled, direct testimony of Donald L. Ware at pg. 14, ln 6. Provide numerical values for the Town of Hudson's contribution to the Company's annual cost of capital both as a result of the prior contract and the current proposal.

RESPONSE:

As referred to my testimony, Hudson pays a share of the expenses (1.1 times principal and interest) associated with the debt on the Company's books that was used to finance its infrastructure, plus a share of the Company's annual payment of \$7,729,032 to the City of Nashua required to pay the Company's share of the City's annual principal and interest payments on the \$150 Million the City borrowed to fund the acquisition of the Pennichuck Corporations stock, in the proposed \$457,083 annual fixed fee. The Company's current debt supports (both to the City and its debt holders) about \$222 million of Property, Plant and Equipment (Original Book Value) of which Hudson is contributing to support the debt associated with about \$86 million of that Property, Plant and Equipment. The proposed Special Contract Volumetric Charge is meant to cover variable operational costs as well as fixed annual operational expenses such as labor and benefits associated with providing service to Hudson.

Under the existing Special Contract, the fixed fee of \$32,800 covered only the Company's Return on Investment and the associated depreciation expense on the cost of constructing the E Street Booster Station (about \$357,000). Under the existing Special Contract any Contribution towards the Company's Property, Plant and Equipment that is required to serve Hudson is paid for through the Volumetric Charge.

Special Contract with Town of Hudson
Responses to OCA Data Requests – Set 2

Date Request Received: 7/7/22
Request No. OCA 2-4

Date of Response: 7/18/22
Witness: Donald L. Ware

REQUEST: Please refer to the prefiled, direct testimony of Donald L. Ware at pg. 13, ln. 7-15 and pg. 16, ln. 2-12. Explain why there is such a large annual credit.

RESPONSE:

The two references in this data request to my direct, prefiled testimony do not refer to the same “credit”. On page 13, lines 7-13 the testimony was describing the concept of Hudson’s paying a monthly volumetric charge based on using 1,337 CCF per day (1.0 MGD). If the month had 30 days than Hudson would pay a minimum volumetric fee based on 30 days x 1,337 CCF/day or 40,110 CCF at the Special Contract volumetric rate. If during that month Hudson used more than 40,110 CCF they would pay for the actual amount of CCF used. If Hudson used less than 40,110 CCF, say 35,000 CCF they would still pay for 40,110 CCF but would carry a credit for payment of 5,110 CCF (40,110 – 35,000) that was paid for, but not used, toward the next month’s volumetric portion of the bill. If in the next month, Hudson used 44,000 CCF they would pay for 40,110 CCF and carry a credit of 1,220 CCF into the next month. (44,000 – 5,110 = 38,890). But since the contract guarantees payment for 40,110 CCF, a further credit is carried through of 40,110 – 38890 of 1,220 CCF). If in the next month Hudson used 50,000 CCF they would pay for a volumetric usage of 48,870 CCF (50,000 – 1,220). At this point, Hudson would have used up all the CCF credits they paid for in the bill where they were billed for 40,110 CCF and only used 35,000 CCF. If Hudson has not used more than 1,337 CCF per day at the end of the year and they have a credit for water paid for but not used during that year, the credit is eliminated and reset at 0 CCF going into the next year. In this way Hudson pays for 1,337 CCF per day over 365 days of the year, but nothing less, even if they use less. If they use more than 1,337 CCF over the period of the year they are paying for actual CCF’s used.

The page 16 lines 2-12 credit referenced is the difference in the bill Hudson paid for at the rates in their Current Contract for usage between July 1, 2021 and June 30, 2022 and what they would have paid if the rates proposed Special Contract for the same usage over the same time frame. Please see Attachment OCA 2-4 for a calculation of the difference purchased water expense based on Hudson buying a total of 427,423 CCF between July 1, 2021 and June 30, 2022. Since the amount purchased by Hudson over this time frame is less than the required 1,337 CCF per day (or 487,968 CCF), the bills computed on the attachment are based on actual amount purchased times the existing Special Contract volumetric rate and compared against the proposed Special Contract with the guaranteed annual purchase amount times the proposed volumetric rate. The rates used for analysis and this time period were the DW19-084 approved rates plus

the QCAPC's approved in DW20-020 and DW21-023. The projected credit calculates out to about \$213,987.

My initial testimony assumed Hudson using 1,337 CCF per day (487,898 CCF) over this time period and based on the current contract this amount of usage would have resulted in a bill of \$1,364,415.90 (the projected bill incorrectly included a GM fixed meter charge for a 4" meter, which is not a part of the current special contract rates) resulting in the \$391,218 credit referenced in my pre filed testimony. Whereas Hudson only used 427,423 CCF over the past year, the bill under the current contract would be less since the current contract does not include a guaranteed minimum volume purchase amount.

DW 22-029

Special Contract with Town of Hudson
Responses to OCA Data Requests – Set 2

Date Request Received: 7/7/22
Request No. OCA 2-5

Date of Response: 7/18/22
Witness: Donald L. Ware

REQUEST: Does the Town of Hudson use and need a contract for 1.0 MGD? Please include Hudson's usage since it shut down the Dame and Ducharme wells.

RESPONSE:

Over the past 6 years, after removing the Dame and Ducharme supply from the available water supply for Hudson, the Town would have purchased about the following average daily amounts (based on assumption that the Weinstein well produced an average of 730,000 gpd of which about 625,000 gpd is available to Hudson after PEU's allotted 15% Share):

2016	1,066,700 gpd
2017	998,200 gpd
2018	922,700 gpd
2019	1,024,900 gpd
2020	867,300 gpd

The Town selected the minimum guaranteed daily purchase amount of 1.0 mgd for use in the COSS.

Since the Dame and Ducharme wells were shut off in late June of 2021 the Town has averaged a daily usage from PWW of about 812,000 gpd. The usage over the last 12 months is down significantly from prior years due to very wet months in July, August, and September of 2021.

Special Contract with Town of Hudson
Responses to OCA Data Requests – Set 2

Date Request Received: 7/7/22
Request No. OCA 2-6

Date of Response: 7/18/22
Witness: Donald L. Ware

REQUEST: Please refer to the prefiled, direct testimony of Donald L. Ware at pg. 17, ln. 5-8. Provide analytical details regarding the tariffed rate that would otherwise apply. Include comparative financial figures in your response.

RESPONSE:

Hudson's bill for 427,423 CCF of usage (usage between 7/1/2021 and 6/30/2022) would have been \$1,814,443.21 at PWW's current tariffed rates (as approved in DW19-084) and adjusted for the QCPAC's approved in DW20-020 and DW21-023. Please see attachment OCA DR 2-3 for the calculation of this bill amount.

Please note that Hudson's current Commission-approved contract with PWW would not allow PWW to bill Hudson at other than the special current rate. See, *Pennichuck Water Works, Inc.*, Order No. 24,611 in Docket No. DW 05-143 (March 31, 2006).

Pennichuck Water Works, Inc.

Special Contract with Town of Hudson
Responses to OCA Data Requests – Set 2

Date Request Received: 7/7/22
Request No. OCA 2-7

Date of Response: 7/18/22
Witness: Donald L. Ware

REQUEST: Please refer to the prefiled, direct testimony of Donald L. Ware at pages 9-10, in which he describes the Cost of Service Study (“COSS”) conducted to support the rates proposed in the special contract with the Town of Hudson. Would the costs associated with providing the proposed service to the Town of Hudson be the same if they were ascertained via a unified COSS conducted as part of the recently filed Pennichuck Water Works rate case (DW 22-032), covering all services provided by the utility including service to its five special contract customers? If the answer to this question is “yes,” explain why this is so.

RESPONSE:

Yes. First, please note that a COSS performed for any permanent rate case evaluates the division of expenses among GM Volumetric, GM Fixed Meter Charge, Private Fire Protection, and Municipal Fire Protection charges. The impact of special contract customers is removed from the COSS because each special customer’s rates are based on a COSS that is unique to that customer as opposed to a blend of service to all customers.

The basis of rates in each special contract is a standalone COSS that evaluates the relative usage patterns of each special contract customer as well as the assets that are required to serve the special contract customer. The COSS for a special contract customer is based on the last rate cases’ operating expenses and rate base (in PWW’s case, the last rate case serves as a surrogate for the expenses associated with providing the cash to pay 1.10 x (Annual principal and interest in the Company’s debt) plus Company’s payment to City of Nashua). Since the basis of the assets and expenses incurred to provide service to each special contract customer have not changed since the last rate case, the results of completing a COSS for each special contract customer using DW22-032 as a basis for the COSS as opposed to DW19-084 would have no impact on the special contract fixed charges. Volumetric charges would go up (as they do with each rate case) based on higher operating expenses in DW22-032 versus DW19-084, therefore they would also be unaffected by a unified COSS. In conclusion a “unified” COSS is a misnomer. Given the customer-specific costs that a COSS analyzes, a COSS cannot serve two masters and be applied across all customer classes and special contract customers. By design, each Special Contract COSS must be considered independently and be built on the results of the most recent rate case.
