**VERIZON NEW ENGLAND, INC. D/B/A VERIZON NEW HAMPSHIRE/  
FUZION WIRELESS COMMUNICATIONS, INC.**

**Order Nisi Approving Interconnection Agreement**

**O R D E R   N O.   23,722**

**June 7, 2001**

On April 2, 2001, Verizon New England, Inc. d/b/a Verizon New Hampshire (Verizon) and Fuzion Wireless Communications, Inc. (Fuzion) jointly filed with the New Hampshire Public Utilities Commission (Commission) a negotiated Interconnection Agreement (Agreement). The Agreement was filed for approval pursuant to section 252(e) of the Telecommunications Act of 1996 (TAct).

The Agreement is a comprehensive set of terms and conditions that will facilitate the entry of Fuzion as a competitive local exchange carrier in New Hampshire. The Agreement becomes null and void if neither party has ordered a facility, service, or arrangement by January 1, 2002; otherwise, the Initial Term of the Agreement expires on January 1, 2003. After the Initial Term, the Agreement can be extended for an additional one year by written consent or continue in effect until terminated by giving the prescribed notice.

The Agreement provides, inter alia, for

transmission/routing of exchange service traffic and exchange access traffic, transmission/termination of other types of traffic and joint network configuration. It further provides for unbundled access, resale, collocation, number portability, dialing parity, access to rights of way, access to data bases, and directory assistance service. The parties will exchange technical and traffic information which will be kept proprietary; each party will maintain facilities within its own network and will not interfere with the other party's systems.

The parties agree to jointly engineer, plan and operate a diverse transmission system with which they will interconnect their respective networks. The Agreement specifies the designation of interconnection points, provides for a joint grooming plan, and provides for the physical interface of facilities.

Interoffice facilities are priced on an unbundled basis to allow for use with other unbundled network elements, thus creating numerous facilities-based and/or resale options by which Fuzion can provision exchange and exchange access services. The Agreement also includes detailed unbundling of local outside plant and central office facilities will allow Fuzion to provide digital and other high-tech services without extensive revisions to the Agreement. Prices in this filing are virtually the same as those in previously approved cellular interconnection

agreements for the same services/elements.

The Commission Staff has recommended approval of the Agreement between Fuzion and Verizon based on a review of the petition, the Agreement and verbal clarification provided by Verizon New Hampshire.

We have reviewed the filing and find it meets the standards of section 252(e)(2)(A) of the TAct for approval of a negotiated Agreement. Specifically, the Agreement does not appear to be discriminatory to any carrier not a party to the negotiations and is consistent with the public interest, convenience, and necessity. We will approve it on a nisi basis in order to provide any interested party an opportunity to submit comments or request a hearing pursuant to RSA 374:26.

We note that Fuzion may purchase services or unbundled elements that may not be covered by their interconnection agreement from Verizon's Statement of Generally Available Terms (SGAT). The SGAT is in effect, per Order No. 22,692, *Re New England Telephone and Telegraph Company d/b/a NYNEX*, 82 NH PUC 618 (1997), subject to continued review pursuant to §252(f)(4) of the TAct.

As new competitors enter the telecommunications market, we recognize that New Hampshire's 603 area code encounters greater and greater demand. Accordingly, we will require that Fuzion request and use numbers responsibly and conservatively,

and invite Fuzion to explore alternative mechanisms for using existing numbers as efficiently as possible. In approving this Agreement, we require Fuzion to comply with our orders on number conservation including Order No. 23,385 issued January 7, 2000 and Order No. 23,392 issued January 27, 2000 as well as further orders regarding number resource optimization.

**Based upon the foregoing, it is hereby**

**ORDERED NISI**, that the Interconnection Agreement negotiated between Fuzion and Verizon is APPROVED; and it is

**FURTHER ORDERED**, that Fuzion is required to comply with our Order No. 23,385 issued January 7, 2000, Order No. 23,392 issued January 27, 2000, and further orders issued by the Commission concerning number conservation; and it is

**FURTHER ORDERED**, that the Petitioners shall cause a copy of this Order Nisi to be published once in a statewide newspaper of general circulation, such publication to be no later than June 14, 2001 and to be documented by affidavit filed with this office on or before June 21, 2001; and it is

**FURTHER ORDERED**, that all persons interested in responding to this petition be notified that they may submit their comments or file a written request for a hearing on this matter before the Commission no later than June 25, 2001; and it is

**FURTHER ORDERED**, that this Order Nisi shall be effective July 5, 2001, unless the Commission provides otherwise in a supplemental order issued prior to the effective date.

By order of the Public Utilities Commission of New Hampshire this seventh day of June, 2001.
