STATE OF NEW HAMPSHIRE PUBLIC UTILITIES COMMISSION

CRS 16-219

NORTHERN NEW ENGLAND TELEPHONE OPERATIONS, LLC

Petition for Licenses to Maintain Utility Cables Over and Across Public Lands and Waters of the State of New Hampshire

Summary of Order Nisi No. 25,949 Granting Licenses

September 30, 2016

On September 30, 2016, the Commission granted licenses to Northern New England Telephone Operations, LLC (FairPoint) pursuant to RSA 371:17 to operate and maintain 53 existing telecommunications cable crossings over public waters and/or state-owned lands as listed below. FairPoint represented in its petition requesting the licenses that the crossings are necessary to meet the reasonable requirements for service to the public, and have been in place for an extended period of time without complaint or detriment to the public use and enjoyment of the public lands and waters. FairPoint also represented that the existing crossings were constructed in accordance with then applicable safety standards and are currently maintained in compliance with established safety standards as set forth in the National Electrical Safety Code. FairPoint stated that, where required, the crossings are also in compliance with attachment and/or occupancy licenses issued by the owners of the attachment or landing points. Commission Staff reviewed the petition and recommended that the licenses be granted, provided that the crossings are operated and maintained in conformance with applicable sections of the National Electrical Safety Code.

The petition and subsequent docket filings, other than any information for which confidential treatment is requested of or granted by the Commission, are posted to the Commission's website at http://puc.nh.gov/Regulatory/Docketbk/2016/16-219.html.

The Commission granted FairPoint's request for licenses to operate and maintain the existing crossings of public lands and waters by order *nisi* dated September 30, 2016, subject to certain conditions related to the safe operation and maintenance of the crossings. The Commission granted the order on a *nisi* basis to ensure that the public receives notice of this docket and has an opportunity to request a hearing. All persons interested in responding to the Commission's action may submit their comments or file a written request for a hearing, which states the reason and basis for a hearing, no later than October 17, 2916. Any person(s) responding to such comments and requests for hearing shall do so no later than October 24, 2016. Following consideration of any comments and requests for hearing received, the Commission may further extend the final effective date of its order. Nonetheless, unless the Commission orders otherwise, the order *nisi* shall become final and effective on October 30, 2016.
