Re: DM 18-104, Resource Energy Solutions, LLC
Application to Register as Provider of Natural Gas Aggregation Service

Dear Mr. Plutzer:

On July 9, 2018, Resource Energy Solutions, LLC (Resource Energy) submitted an application with the Commission to register as a provider of natural gas aggregation service.

Commission Staff filed a memorandum on October 5, 2018, in which it confirmed its review of the application and its determination that the application met the requirements of N.H. Code Admin. Rules Chapter Puc 3000. Staff noted that, pursuant to Puc 3003.04(e), Resource Energy's application was deemed approved, effective as of September 7, 2018. Staff recommended that the Commission notify Resource Energy that its registration application for a two-year term was deemed approved, effective on September 7, 2018.

The Commission has approved Staff's recommendation. Accordingly, please be advised that Resource Energy's application for registration is deemed approved, effective as of September 7, 2018. The registration is for a term of two years and expires at the close of business on September 7, 2020. Pursuant to Puc 3003.05(a), you must submit a renewal application at least 60 days prior to the expiration of the approved registration term, on or before July 9, 2020.

Please be aware that registered providers of natural gas aggregation service are subject to specific requirements contained in N.H. Code Admin. Rules Puc 3000 – Competitive Natural Gas Supplier and Aggregator Rules. These rules are available at: <http://www.puc.nh.gov/Regulatory/Rules/PUC3000.pdf>.

Please note that, effective as of July 1, 2014, each registered natural gas aggregator is subject to an annual assessment of \$2,000, unless it demonstrates that its gross revenue in New Hampshire during the preceding fiscal year (from July 1 through June 30) was less than \$10,000, pursuant to RSA 363-A:2, III and 5.

Sincerely,

A handwritten signature in black ink, appearing to read "Debra A. Howland".

Debra A. Howland
Executive Director
